

Conwy and Denbighshire Public Services Board: Well-being Delivery Plan 2018 - 2023

Place – Supporting Environmental Resilience

Delivery Plan – 2018 / 19

Priority	Year 1 Priorities (2018/19)	Impact
Place - Supporting Environmental Resilience	<ol style="list-style-type: none"> 1. Ensure we have communities that understand the value of the natural environment & how they can positively contribute. 2. Focus on sustainable procurement and local produce. 3. Promote the importance of addressing environmental issues e.g. recycling, energy efficiency, carbon emissions. 4. Improve the energy efficiency of our buildings 	<ul style="list-style-type: none"> • Communities that understand and value the importance of the natural environment and the essential services it provides for society. • A natural environment that is being managed in a sustainable way whilst wildlife and nature are flourishing. • A natural environment that is providing the maximum benefits to our residents across the social, environmental, economic and cultural spectrum. • Consistency between partner organisations working to common environmental policy, standards and targets. • Better understanding of the environmental assets across Conwy and Denbighshire and how these can be used to support communities and organisations.

Specific actions in 2018/19 to support year 1 priorities:

1. Develop a common environmental policy statement and identify key targets.
2. Develop the community pledge (including communication plan) and map existing schemes and good practice.
3. Identify areas to lobby that are beyond the PSB's gift to make positive changes.
4. Identify the community benefits from development (e.g. S106 agreements) through collaborative discussion.
5. Understand the 'conflict' between planning policy and environmental issues through collaborative discussion and seek local solutions.

Achievement Measures <i>Describe what will you deliver in 2018/19?</i>	Lead Officer	Baseline Data (If applicable)	Target date	2018/19 Monitoring (quarterly or half yearly)	Achievement Milestones <i>Detail of how you expect to know if the Measure is achieved, e.g. how much, how well, difference made?</i>	Organisations
1 a. Establish task and finish group to define scope of work for developing a common environmental policy statement. Tasks may include – <ul style="list-style-type: none"> - Mapping additional partners / stakeholders - mapping / investigating existing targets used in this area (e.g. WG policy targets) 			April 2019		Development of a common environment policy statement.	

	<ul style="list-style-type: none"> - development and implementation of a communication plan 						
2	<p>a. Establish task and finish group to define scope of work for developing community pledges. Tasks may include -</p> <ul style="list-style-type: none"> - Mapping additional partner / stakeholders - mapping existing scheme / initiatives in this area and exploring ways to link these - investigating good practice - development and implementation of a communication plan 			April 2019		Development of community pledges.	
3	<p>a. Table the areas identified for lobbying to the PSB September meeting for debate and action, including –</p> <ul style="list-style-type: none"> - <i>Greater focus and priority on the impact of rising sea level and interventions needed</i> - <i>embedding government sustainability legislation into planning policy</i> - <i>Aligning building regulations to zero carbon wales ambition</i> - <i>Investment in green infrastructure (e.g. active travel improvements, electric car charging points, microgeneration)</i> - <i>Improving flexibility and sustainability of grant funding</i> - <i>Reducing excess packaging and single use products – more pressure on</i> 	PSB Chair		Ongoing			All PSB partners

	<p><i>producer responsibility / introduce levy (e.g. plastic bags)</i></p> <ul style="list-style-type: none"> - <i>Managing existing landscape for biodiversity</i> - <i>Sustainable procurement</i> 						
4	Identify existing or establish group/forum for procurement practitioners to discuss community benefits when planning and tendering for work.			April 2019			
5	a. Invite Local Development Plan (LDP) Managers to discuss planning policy.			Sept 2019
