## **5 ADRODDIAD BLYNYDDOL AR AMDDIFFYN OEDOLION YN SIR DDINBYCH**

Roedd copi o adroddiad gan y Cyfarwyddwr Corfforaethol: Moderneiddio a Lles yn ymwneud â pherfformiad blynyddol ar Amddiffyn Oedolion yn cydymffurfio â Chanllawiau Statudol, wedi ei ddosbarthu gyda'r papurau ar gyfer y cyfarfod.

Roedd yr adroddiad yn rhoi gwybodaeth i alluogi adolygiad o'r cynnydd dros y deuddeg mis diwethaf, ac yn sicrhau bod gofynion polisi amddiffyn oedolion yn rhan o agwedd gyffredinol y gyfundrefn tuag at ddarparu a datblygu'r gwasanaeth.

Y ddogfen bolisi allweddol mewn Amddiffyn Oedolion ar gyfer Sir Ddinbych oedd Polisi a Chanllawiau Interim Cymru ar gyfer Amddiffyn Oedolion Agored i Niwed, a oedd yn seiliedig ar y canllawiau â gyhoeddwyd gan Lywodraeth Cymru 'Mewn Dwylo Diogel'. Roedd Fforwm Gogledd Cymru yn monitro datblygiadau i scrhau eu bod wedi eu hymgorffori mewn arferion presennol. Roedd 'Mewn Dwylo Diogel' yn amlygu cyfrifoldeb Awdurdodau Lleol wrth gymryd y rôl arweiniol yn y broses.

Bu i'r Pennaeth Gwasanaethau Oedolion a Busnes grynhoi cynnwys yr adroddiad, a oedd yn cynnwys materion allweddol a meysydd gweithgaredd yn ymwneud ag Amddiffyn Oedolion 2010/11, Hyfforddiant a ddarparwyd gan Sir Ddinbych mewn perthynas ag amddiffyn oedolion, Dangosyddion Perfformiad a Chynllun Gweithredu Amddiffyn Oedolion Agored i Niwed (POVA). Roedd datblygiadau diweddar yn cynnwys:

- Ymgynghori ar Fesur Gwasanaethau Cymdeithasol (Cymru) a gyhoeddwyd gan Lywodraeth Cymru ym Mawrth 2012.

- Ystyried y posibilrwydd o gael Cyd-bwyllgor Amddiffyn Oedolion gyda Chonwy.
- Arolwg Achos Difrifol a ymgwymerwyd mewn perthynas ag achos dynes oedrannus a lofruddiwyd gan ei gŵr.
- Grŵp Gorchwyl a Gorffen a oedd ar hyn o bryd yn ystyried opsiynau i argymhell model ar gyfer rheoli gwaith diogelu oedolion yn Sir Ddinbych yn y dyfodol.
- Datblygu Cynllun Gweithredu gan Bwyllgor Amddiffyn Oedolion Sir Ddinbych.

Roedd yr Atodiadau i'r adroddiad yn cynnwys peth o'r data allweddol ar gyfer gwaith amddiffyn oedolion agored i niwed yn Sir Ddinbych yn ystod y flwyddyn. Derbyniodd Sir Ddinbych 244 atgyfeiriad er bod llawer o achosion yn parhau ac roedd casglu data yn anghyflawn.

Atodiad 1 – dangos y grwpiau a effeithiwyd gan gamdriniaeth.

Atodiad 4 – adnabod y bobl yr honnwyd eu bod yn gyfrifol am gamdrin.

Atodiad 5 – dangos statws honiadau.

Ymatebodd y Pennaeth Gwasanaethau Oedolion a Busnes i bryderon a godwyd gan y Cynghorydd J.A. Davies ar yr angen i ddarparu llinell ofal gyfrinachol i oedolion. Esboniodd bod taflenni a ddsbarthwyd ar ran Fforwm Gogledd Cymru a oedd yn cynnwys rhif ffôn anghywir wedi cael eu galw'n ôl lle bo modd, ac roedd rhif ffôn arall wedi ei roddi allan ac wedi ei restru ar eu gwefan. Cytunodd yr Aelodau y dylid ystyried y posibilrwydd o ddarparu llinell ofal i oedolion, ynghyd â manylion y costau dan sylw, yn cael ei archwilio.

Mewn ymateb i gwestiwn gan y Cynghorydd J. Butterfield, rhoddodd y Pennaeth Gwasanaethau Oedolion a Busnes fanylion y Cynlluniau Byw yn y Gymuned a oedd yn rhedeg yn Sir Ddinbych a chytunodd ystyried y posibilrwydd bod Aelodau'r Pwyllgor Craffu priodol yn ymweld â detholiad o'r cynlluniau a oedd yn rhedeg ar hyn o bryd.

Amlinellwyd manylion y cysylltiadau rhwng Uned Gwarchod y Cyhoedd a POVA, gan roddi sylw penodol at bresenoldeb yr Heddlu ar y Pwyllgor Diogelu Oedolion. Rhoddwyd cadarnhad bod yr Heddlu yn sensitif i faterion yn ymwneud ag oedolion agored i niwed ac i achosion yn ymwneud â phersonau ag anabledd dysgu, a bod yr hyfforddiant priodol wedi ei roddi i heddweision mewn perthynas â hyn.

Cadarnhaodd y Pennaeth Gwasanaethau Oedolion a Busnes, trwy gynyddu ymwybyddiaeth y cyhoedd o gamdriniaeth, y gallai fod perygl bod achosion proffil uchel yn arwain at atgyfeiriadau a allai fod yn her i allu'r tîm POVA i ddelio â'r gwaith yn y strwythur presennol. Fodd bynnag, pwysleisiwyd pwysigrwydd cynyddu ymwybyddiaeth y cyhoedd ac amlygwyd gwaith y Grŵp Gorchwyl a Gorffen wrth reoli atgyfeiriadau. Pwysleisiodd y Cynghorydd E.A. Jones arwyddocad sicrhau na fyddai capasiti yn rhwystro neu'n gwrthannog pobl ag anghenion rhag defnyddio'r gwasanaeth.

Cadw cofnodion

Hyfforddiant  
Adrodd a chraffu

Roedd materion penodol eraill wedi eu hamlygu wedyn a oedd yn ymwneud ag ystafelloedd "seibiant" yn ysgolion Sir Benfro, ac esboniwyd bod gan Sir Ddinbych bolisi cyffredin mewn ysgolion uwchradd ar 'Ddefnyddio Grym Rhesymol ac Ymyriad Corfforol Cyfyngol'. Jones, esboniodd y Cyfarwyddwr Corfforaethol: Cwsmeriaid bod y polisi wedi ei anfon at ysgolion uwchradd gyda'r nod bod y polisi, neu fersiwn derbyniol ohono, yn cael ei fabwysiadu gan holl gyrff llywodraethol ysgolion uwchradd erbyn y Pasg 2013. Mae'r adroddiad yn rhoi 'Adroddiad Cryno o Eithriadau', gyda phenodau manylach ar gyfer pob un o'r wyth o ganlyniadau'r Cynllun Mawr.

## **2. Beth yw'r rheswm dros wneud yr adroddiad hwn?**

- 2.1 Cyflwyno gwybodaeth ynghylch darparu'r Cynllun Mawr.

## **3. Beth yw'r Argymhellion?**

- 3.1 Bod y Pwyllgor Archwilio'n ystyried ac yn cyflwyno sylwadau ar gynnwys yr adroddiad ac yn nodi unrhyw feysydd ar gyfer gwella wrth ddarparu'r Cynllun Mawr.

## **4. Manylion yr adroddiad**

- 4.1 Cynllun Mawr Sir Ddinbych: 2011-14 yw'r cynllun sy'n gyrru gweithio mewn Partneriaeth yn Sir Ddinbych. Y Bwrdd Gwasanaethau Lleol sy'n gyfrifol am y Cynllun Mawr ac mae'n dal asiantaethau partner (gan gynnwys Bwrdd Iechyd Prifysgol Betsi Cadwaladr, y trydydd sector, Heddlu Gogledd Cymru, Gwasanaeth Tân ac Achub Gogledd Cymru, Iechyd Cyhoeddus Cymru, Cyngor Sir Ddinbych<sup>1</sup>) yn gyfrifol am weithredu'r cynlluniau gweithredu i ddarparu'r Cynllun Mawr a'i wyth canlyniad.

- 4.4 Mae Partneriaid erbyn hyn hanner ffordd drwy'r amserlen ddarparu, ac, o gofio hynny, mae gofyn i bartneriaid ganolbwyntio a blaenoriaethu rhai elfennau er mwyn gwella'r canlyniadau i bobl yn Sir Ddinbych. Er enghraifft, ymestyn cefnogaeth i bobl hŷn ledled y sir, talu sylw i'r heriau sy'n wynebu Canol Tref y Rhyl; gwella'r gefnogaeth i ofalwyr ifanc, rhwystro hunanladdiad a hunan niweidio; amddiffyn pobl fregus rhag tân ac adolygu cyfraniad partneriaid i'r Strategaeth Uchelgais Economaidd a Chymdeithasol (Canlyniad 8). Bwriedir dechrau ar nifer fechan iawn o elfennau o waith yn 2013.

- 4.7 Mae'n rhaid i Bartneriaethau bwysleisio pwysigrwydd casglu data'n gywir ac yn brydlon, a pharatoi adroddiadau o ansawdd da i swyddogion arweiniol, er mwyn gallu rheoli perfformiad a chymryd penderfyniadau ynghylch partneriaethau'n effeithiol. Sefydlwyd trefniadau ar gyfer casglu tystiolaeth ynghylch effeithiau ein hymyriadau ar fywydau pobl ac mae gwaith ar y gweill i fapio adnoddau'r Bartneriaeth. Bydd gwybodaeth ynghylch hyn yn cael ei gynnwys yn yr adroddiadau blynyddol / diwedd y cynllun.
- 4.8 Yn gyffredinol, does yna ddim rhwystrau mawr i ddarparu'r Cynllun Mawr ac rydyn ni'n hyderus y bydd y Cynllun yn cael ei ddarparu.

## **5. Sut y bydd y penderfyniad yn cyfrannu at y Blaenoriaethau Corfforaethol?**

- 5.1 Mae'r Cynllun Corfforaethol yn cyd-fynd â'r Cynllun Mawr, mae yna gysylltiad rhwng saith blaenoriaeth y cynllun corfforaethol ac wyth canlyniad y Cynllun Mawr.

## **6. Beth fydd y gost a sut y bydd yn effeithio ar wasanaethau eraill?**

- 6.1 Y Bwrdd Gwasanaethau Lleol sy'n gyfrifol am y Cynllun Mawr ac mae nifer o fyrddau'r bartneriaeth yn gyfrifol am ei ddarparu. Mae'r sefydliadau partner yn ariannu'r Cynllun Mawr yn Sir Ddinbych (y sector cyhoeddus) o fewn y cyllidebau presennol / craidd a thrwy gomisiynu call.

## **7. Pa ymgynghori a wnaed?**

- 7.1 Adroddir ar berfformiad yn rheolaidd ac mae'n cael ei reoli gan bartneriaid a byrddau'r bartneriaeth.
- 7.2 Mae Bwrdd Iechyd Prifysgol Betsi Cadwaladr yn rheoli ymgynghoriad eang ar newidiadau yn y Gwasanaeth Iechyd Gwladol ar hyn o bryd. Bydd y rhain yn effeithio ar y Cynllun Mawr, yn enwedig o ran modelau cydweithio, trefnu gwasanaethau a gofal iechyd yn lleol.

## Guidance on performance

### Indicators of Success

Each BIG Plan outcome has Indicators of Success (shared indicators, for which no single partner is responsible, eg crime rate). Some Indicators of Success have benchmarks; others do not. Where no benchmarks are available, eg residents' survey data, baseline data is used to assess performance.

Performance is summarised taking into account two factors:

- position against benchmark/baseline (better than; similar to; or worse than benchmark/baseline), and;
- trend i.e. whether performance is improving (▲), static (◀▶), or deteriorating (▼)

These two factors generate a ROYG status:

Worse than benchmark/baseline (Red)	Similar to benchmark/baseline (Orange)	Similar to benchmark/baseline (Yellow)	Better than benchmark/baseline (Green)
---	--	--	--

### Performance measures

Each BIG Plan outcome has performance measures. Most measures have baseline data. Where none is available this is generally because the measure is new.

Performance is summarised taking into account two factors:

- position in comparison to the target, and;
- trend i.e. whether performance is improving (▲), static (◀▶), or deteriorating (▼)

These two factors generate a ROYG status:

Requires intervention (Red)	Acceptable (Orange)	Good (Yellow)	Excellent (Green)
--------------------------------	------------------------	------------------	----------------------

# Summary Exceptions Report

This is a summary of exceptions relating to each of the BIG Plan outcomes. The report is supported by individual chapters which provide detailed performance information for each outcome.

The 'overall evaluation' has been determined by taking into account:

- our Indicators of Success for each outcome, and
- the level of confidence that outcomes for people in Denbighshire will improve during the remainder of The BIG Plan.

The methodology for producing an 'overall evaluation' will be strengthened as local strategic partnership structures are confirmed.

## Chapter 1: OUTCOME 1: Older people lead independent and fulfilled lives

Evaluation	Overall Evaluation
Denbighshire, as a place to live, is improving for older people. While support is being strengthened, support is not yet available equitably across the county.	Orange (Acceptable)

## Chapter 2: OUTCOME 2: People and places in Rhyl benefit from regeneration activity

Evaluation	Overall Evaluation
Communities in Rhyl are slowly benefiting from regeneration, and educational outcomes are improving. However, outcomes for people in Rhyl are still generally worse than the rest of the county. Intervention is required in respect of Rhyl Town Centre.	Orange (Acceptable)

## Chapter 3: OUTCOME 3: Children and young people in Denbighshire achieve and have skills for life

Evaluation	Overall Evaluation
Youth Support Services were acknowledged by Estyn as good; demonstrated by improved outcomes for learners. Basic skills are improving, but numeracy skills in particular are still below the level considered essential in everyday life. There is concern to ensure young carers have access to appropriate support in Denbighshire. Interventions are in place.	Yellow (Good)

**Chapter 4: OUTCOME 4: Vulnerable families in Denbighshire are supported to live a life free from poverty, where they can be independent and flourish**

Evaluation	Overall Evaluation
Children born in Denbighshire are more likely to have a low birth weight and around one fifth of children are living in poverty. Learners eligible for free school meals are still less likely to achieve than learners not eligible for free school meals. Integrated support for families is improving but its impact will take time to be demonstrated. An element of the Families First programme has been subject to delay; otherwise Denbighshire is regarded as leading the way. Partners are concerned about the full impact of welfare benefit reform. <sup>1</sup>	Orange (Acceptable)

**Chapter 5: OUTCOME 5: Needs of our rural communities are recognised and met**

Evaluation	Overall Evaluation
Indicators suggest that the experiences of people living in rural areas have not changed, or in some cases worsened, since the introduction of The BIG Plan. Rural areas have improved access to advocacy but transport remains concern for young people. A review of Indicators of Success is required.	Orange (Acceptable)

**Chapter 6: OUTCOME 6: People in Denbighshire have healthy lifestyles**

Evaluation	Overall Evaluation
People in Denbighshire generally have a good level of health and wellbeing. However, almost one in four adults smoke and around half are overweight. There are no major obstacles to this outcome being achieved, although further work is required to establish mental health and wellbeing in Denbighshire.	Yellow (Good)

**Chapter 7: OUTCOME 7: Children, young people and vulnerable adults in Denbighshire are safe**

Evaluation	Overall Evaluation
The number of children on the child protection register for over 12 months has doubled since last year, and this is reflected throughout Wales. The number of fires in Rhyl has decreased slightly with interventions in place to seek further improvement. The suicide rate has increased slightly. Implementation of Families First and the Talk To Me strategy will address concerns around suicide/self-harm.	Yellow (Good)

<sup>1</sup> Please note: this outcome contains an extensive range of Indicators of Success (national Families First indicators) rendering concise evaluations difficult. Please read the 'what's going well', 'what concerns us' and 'outlook' sections.

**Chapter 8: OUTCOME 8: Denbighshire has a thriving and sustainable economy and a skilled workforce**

Evaluation	Overall Evaluation
At a very difficult time economically, Denbighshire is providing a good level of support for people to volunteer and gain employment. Basic skills are improving, but numeracy skills in particular are still below the level considered essential in everyday life (interventions are in place). This Outcome should be revised to reflect partners' contribution to the new Economic and Community Ambition Strategy.	Orange (Acceptable)

## Chapter 1: **OUTCOME 1: Older people lead independent and fulfilled lives**

**What this means:** This means we will promote a positive and empowering image of ageing and move towards models of health and social care that address the ‘whole’ needs of each individual. We want to enable older people to live independently and safely in their own home for as long as possible through community-based support, reablement and intermediate care. We will work together to reduce the need for health and social care, focusing on interventions in older people’s communities.

Q2 2012/13	Change Management and Implementation Group (CMIG)	Denbighshire, as a place to live, is improving for older people. While support is being strengthened, support is not yet available equitably across the county.	Orange (Acceptable)

### What’s going well

- Denbighshire, as a place to live, is improving for older people; carers of older people are being better supported and older people are less likely to experience delays in transfers of their care.

### What concerns us and what we’re doing about it

- Fewer older people were supported to live in their own communities in 2011/12 than in 2010/11. The reasons for this need to be established and discussed.
- While support for carers who are assessed and receive carer’s services is good, carers in Denbighshire are *less likely* to be assessed for support in their own right than elsewhere in Wales (identified as ‘red’).<sup>2</sup> Performance is improving, and will improve further, and there is a considerable effort going into improving this. Implementation of the Carers Strategy and improving systems will lead to more carers being identified and consequently more being offered an assessment in their own right. A Project Board is in place to ensure responsibilities in respect of the Carers Measure are met.
- Support for older people is being strengthened, but support is not yet available equitably across the county (for example, the Home Enhanced Care Service). There are two Locality Leadership Teams (North Denbighshire and South and Central). These are multi-disciplinary and their purpose is to identify opportunities for service changes and improvements within each Denbighshire locality, based on the needs of the local population. Each has a

## Outlook

- It is anticipated that older people's access to, and experiences of, support will continue to improve during the remainder of The BIG Plan: Part I.

## Chapter 2: **OUTCOME 2: People and places in Rhyl benefit from regeneration activity**

**What this means:** Providing leadership and coordination to tackle the key challenges to the wellbeing and economic circumstance of people living in a deprived area and to build the relationship between partners and the communities they serve. We must ensure regeneration is coordinated and people feel the benefits. “The concentration of deprivation in the poorest communities in Wales can necessitate a focus on place.” (Child Poverty Strategy for Wales, 2011).

Status Updated	Updated by:	Evaluation	Overall Evaluation
Q2 2012/13	Rhyl Going Forward Programme Manager	Communities in Rhyl are slowly benefiting from regeneration, and educational outcomes are improving. However, outcomes for people in Rhyl are still generally worse than the rest of the county. Intervention is required in respect of Rhyl Town Centre.	Orange (Acceptable)

### What’s going well

- Communities in Rhyl are slowly benefiting from regeneration activity; demonstrated by two wards moving out of the top five most deprived areas in Wales.
- Educational outcomes for learners in Rhyl high schools are improving. However, there remains an attainment gap between those learning in Rhyl and those learning in Denbighshire’s other high schools.

### What concerns us and what we’re doing about it

- Rhyl West 2 remains the first most deprived ward in Wales (identified as ‘red’). People in Rhyl are more likely to be out of work compared to the rest of Denbighshire, Wales and Great Britain (identified as ‘red’).
- More town centre properties in Rhyl were vacant in 2011 than in 2010 (although the proportion of vacancies in other towns has increased and is highest in Corwen), and revenue from tourism industry direct employment has declined slightly. There are significant economic structural problems in Rhyl Town Centre. The Rhyl Going Forward Programme Board is taking action; but a strategy and projects are required. This has been identified as ‘red’ and will be escalated to LSB.
- The three pillars of regeneration (physical; economic; social) are being delivered by the action plan for this Outcome; Rhyl Going Forward (physical); Rhyl City Strategy (economic) and Communities First (social). The Rhyl Going Forward Strategy is currently being refined and projects are being reprioritised. A revised Communities First Action Plan will be re-submitted in December 2012.

- Communities Scrutiny Committee receives regular updates from Rhyl Going Forward. For more information, contact Rhian Evans, Scrutiny Coordinator or Rhys Hughes, Democratic Services Officer.

## Outlook

- Significant challenges remain and as with all regeneration programmes, it will take many years before we will be able to demonstrate improved outcomes for people living, working and learning in Rhyl. However, our Indicators of Success suggest that Rhyl is moving in the right direction.

## Chapter 3: **OUTCOME 3: Children and young people in Denbighshire achieve and have skills for life**

**What this means:** Enabling children and young people to achieve their potential to give them the best chance in life. This is not just academic potential but will include skills to help children and young people to take advantage of life's opportunities. It means supporting our children and young people (including looked after children, young carers, disabled children and young people, children and young people in poverty, high achievers) to participate effectively in education, employment, training or any other meaningful activity.

Q2 2012/13	CMIG	Youth Support Services were acknowledged by Estyn as good; demonstrated by improved outcomes for learners. Basic skills are improving, but numeracy skills in particular are still below the level considered essential in everyday life. There is concern to ensure young carers have access to appropriate support in Denbighshire. Interventions are in place.	Yellow (Good)

### What's going well

- Youth Support Services were acknowledged by Estyn as good.
- Outcomes for children and young people in Denbighshire are positive; demonstrated by improved outcomes for learners (improved attendance and achievement in Welsh and English).

### What concerns us and what we're doing about it

- Literacy and numeracy skills of further education 16-19 learners have improved since 2010/11, but a significant proportion of learners still lack the level considered to enable a person to function satisfactorily in everyday life ('orange' and 'red' in this report) (identified as 'red'). All schools and colleges have their own strategies on improving the basic skills of all learners and the Potential programme is fully up and running in secondary schools in all towns. In all cases attendance has greatly improved. There are Basic Skills Coordinators in each school, and 'Catch Up' programmes in all schools. Over 80 percent of learners in 2012 achieved the level 2 threshold (5 A\* to C GCSE grade equivalence), and 53 percent achieved the level 2 threshold plus English/Welsh and Maths.
- There is concern to ensure young carers are equitably represented and have access to appropriate support in Denbighshire, in response to the Carers Measure. This has been identified as 'red' and interventions are in place, monitored by the Children and Young People's Strategic Partnership

(CYPSP). A proposal to commence regional commissioning for a young carers service as of April 2014 is in progress (the newly developed Regional Family Support Board is accountable for delivering this). The existing young carers service is being delivered, jointly funded between Children and Family Services, DCC, and Denbighshire's Families First. This service enhances statutory requirements by adding value. A Task and Finish Group is being established to improve identification of, and support for, young carers.

- The pilot for accredited family learning opportunities for families with children up to the age of 7 is in place, but is not yet available for children up to the age of 11. The BIG Plan has made a commitment to extend this programme, and this will commence during 2012/13.

## Outlook

- We are confident that outcomes for learners will continue to improve subject to the above weaknesses being addressed.

## Chapter 4: **OUTCOME 4: Vulnerable families in Denbighshire are supported to live a life free from poverty, where they can be independent and flourish**

**What this means:** Fewer families will be living in poverty than would be the case if we were not focusing resources in this area. This also means that the most vulnerable children and families will have improved health, education and economic outcomes and feel confident and optimistic about their futures. We realise that this is a tough aspiration. We are currently facing the most challenging economic climate seen in recent years, and during this time we want to do as much as we can to cushion the effects of unemployment and reduced public spending on vulnerable families.

Status Updated	Updated by:	Evaluation	Overall Evaluation
Q2 2012/13	CMIG	Children born in Denbighshire are more likely to have a low birth weight and around one fifth of children are living in poverty. Learners eligible for free school meals are still less likely to achieve than learners not eligible for free school meals. Integrated support for families is improving but its impact will take time to be demonstrated. An element of the Families First programme has been subject to delay; otherwise Denbighshire is regarded as leading the way. Partners are concerned about the full impact of welfare benefit. <sup>8</sup>	Orange (Acceptable)

### What's going well

- More young people were in education, employment or training in 2011/12; better than the Wales average and our baseline.
- There were fewer underage conceptions in 2011/12 compared to 2010/11.
- There are fewer young people entering the youth justice system. Figures show an extremely positive and healthy overall performance and the change against the baseline is excellent (-48.1 percent).<sup>9</sup>

<sup>8</sup> Please note: this outcome contains an extensive range of Indicators of Success (national Families First indicators) rendering concise evaluations difficult. Please read the 'what's going well', 'what concerns us' and 'outlook' sections.

<sup>9</sup> Please note: During this year the Ministry of Justice has begun producing 'first time entrants' figures using Police National Computer (PNC) data and reporting them in a rolling 12 month cohort. The trends, using this new methodology, still show very positive figures but there is a concern over the complete validity of this data as there is a difference between Case Management System data and PNC data. These differences will be reconciled imminently.

- Integrated support for families has started to improve since the introduction of The BIG Plan. The Team Around the Family and Family Information Service have been further enhanced and supported. The impact of this support will take time to be demonstrated by Indicators of Success.
- The strategically commissioned Families First programme is recognised across Wales as 'leading the way', although an element of the programme has been subject to delay. The programme is holistic; family focused and takes a 'whole family' approach. It has been underpinned by an outcome focused approach to commissioning.
- Seven out of nine strategically commissioned Families First elements (play; income maximisation; parenting; young carers; childcare; youth support) have been delivering since April 2012. The two remaining elements (Family Support and Disability) have been delayed. Family support will be in place by the end of November 2012. The Families First Disability element has 4 strands, two of which are in place: a comprehensive disability training programme for professionals, practitioners, parents and carers delivered in partnership between the two special schools (Tir Morfa and Ysgol Plas Brondyffryn); and a childcare shadowing programme. The two remaining elements (Buddy Service and Home/Community Based Play Development for disabled children) are expected to be in place from January 2013.
- There have been wider activities and more strategic use of available funding to make services more inclusive for disabled children and young people and their families including holiday and after school clubs for children with profound and complex needs.

#### **What concerns us and what we're doing about it**

- Around one fifth of children in Denbighshire are living in poverty and this has increased slightly since 2010/11.
- More young people are claiming Job Seeker's Allowance than the rest of the working age population in Denbighshire, although the number has decreased by 0.6 percent since 2010/11. The Families First programme and actions for Outcomes 2, 3 and 8 are supporting young people's access to education, training and employment.
- Learners eligible for free school meals are still less likely to achieve at KS2 and KS4 than other learners, although at KS4 the number has increased by 8.55 percent.
- The rate of low birth weight babies in Denbighshire increased in 2010 and at that point was one of the highest rates in Wales (identified as 'red'). The rate of low birth weight babies is highest in Rhyl South West and Rhyl West.<sup>10</sup> Low birth weight is a strong indicator of deprivation, vulnerability and short and long term health problems. Antenatal support and the interventions in Outcome 6 (eg tobacco control) should reduce the number of babies born with a low birth weight.
- The number of households with dependent children accepted as eligible, unintentionally homeless and in priority need is high in Denbighshire.

---

<sup>10</sup> More information is available from Communities First.

- The house share crisis intervention project is operational. Supporting People is working with all partners to promote and develop the support project, but there are some significant challenges. The full impact of welfare benefit reform has not yet been felt and pressure on the private rented sector has not manifested as anticipated. There is no culture of sharing accommodation in Denbighshire and so the fact that house sharing is now explored routinely for everyone moving on from supported housing represents real change.
- The rate of reoffending - despite a decrease in 2010 - was higher in Denbighshire than for neighbouring counties (eg Flintshire and Conwy) (identified as 'red'). Please note further analysis and more up to date data is not yet available.

## Outlook

- The Families First programme, in its entirety, is nearly in place and the programme will soon begin to demonstrate the difference it is making for families.
- Partners are concerned about the full impact of welfare reform, and Indicators of Success will require close monitoring and discussion. LSB is considering this, and its financial and digital inclusion projects will be important support programmes for people in Denbighshire (see Outcome 8).

## Chapter 5: **OUTCOME 5: Needs of our rural communities are recognised and met**

**What this means:** People, including children and young people, living in rural areas will feel recognised, valued and listened to. Whilst it is not always possible to ensure every service is available in every rural area, we will work with communities to understand which services are most important to them and how they can be delivered more effectively.

Status Updated	Updated by:	Evaluation	Overall Evaluation
Q2 2012/13	CMIG	Indicators suggest that the experiences of people living in rural areas have not changed, or in some cases worsened, since the introduction of The BIG Plan. Rural areas have improved access to advocacy but transport remains concern for young people. A review of Indicators of Success is required.	Orange (Acceptable)

### What's going well

- More residents in rural areas (and throughout Denbighshire) were 'very satisfied' with their local area as a place to live (Denbighshire Residents Survey).
- Access to Advocacy has extended access to advocacy in rural areas, demonstrated by steadily increasing uptake of the service. The increase is due to the service's profile being raised and the use of mobile outreach.
- Denbighshire County Council has match-funded St Asaph's Participatory Budgeting (PB) project with £3,000. Over 60 people attended the event with 16 projects put forward. A further £3,000 will be invested in a PB project in Llangollen in 2013.

### What concerns us and what we're doing about it

- Indicators suggest that the experiences of people living in rural areas have not changed, or in some cases worsened, since the introduction of The BIG Plan. It should be noted though that some data were not available at the time of writing, and that some indicators are less robust than for other outcomes (there is a dearth of indicators of quality of life in rural areas).
- Transport remains a key issue of concern, particularly for young people (identified as 'red'). It was hoped The BIG Plan would begin to address this through a reduction in fares. However, the rising costs of the service owing to fuel price increases and actual and future reductions in funding support have rendered this unachievable for the time being.
- Roads in Denbighshire are in a poorer condition than roads in other counties in Wales, but they are improving faster whereas as other counties' roads are deteriorating (this is especially true of roads in rural areas).

- The Llangollen Railway Trust Ltd are committed to Corwen and a modified Phase One plan would involve the early completion of 'Corwen East', a station platform capable of operating steam hauled services into Corwen by latest 2014. The run-around of locomotives would take place at a loop installed some 170 metres east of the platform. Strategic Regeneration have been seeking to commission a study for Phase Two (utilising £45K set aside from the Rural Development Plan Lead Body budget) which will offer engineering solutions against a cost benefit analysis, but this has currently been suspended by the DCC Strategic Investment Group pending commitment to Phase One by the Railway. However should agreement be granted to proceed with the study then this can take into account the revised proposals to Phase 1 and the required flood elicitation works.

## Outlook

- We are not confident that we are able to demonstrate the difference we are making to people living in rural areas due to a dearth of good quality indicators. It is hoped this may be addressed using the resident's survey and/or qualitative research. This needs to be scoped and approved.

## Chapter 6: **OUTCOME 6: People in Denbighshire have healthy lifestyles**

**What this means:** People living in Denbighshire will be healthy and make informed decisions that result in individuals feeling and being as healthy as possible. It also means individuals, families and communities taking responsibility for their own health and wellbeing. The negative impacts of drinking, smoking, poor diet, taking risks with sexual health and inactive lifestyles will be reduced.

Status Updated	Updated by:	Evaluation	Overall Evaluation
Q2 2012/13	CMIG	People in Denbighshire generally have a good level of health and wellbeing. However, almost one in four adults smoke and around half are overweight. There are no major obstacles to this outcome being achieved, although further work is required to establish mental health and wellbeing in Denbighshire.	Yellow (Good)

### What's going well

- People in Denbighshire generally have a good level of health; although people living in deprived areas tend to experience worse health outcomes.
- Only a small number of people present to services with alcohol/substance misuse issues.
- There were fewer conceptions and abortions for under 18s in 2011/12 compared to 2010/11. All school nurses provide sex and relationship education (SRE) in years 6 and 9 in partnership with the teachers. A pilot project is underway between Ysgol Glan Clwyd and feeder schools to improve SRE at transition between primary and secondary schools. Ysgol Brynhyfryd, Ysgol Dinas Bran and Ysgol Tir Morfa governors have approved the extension of the school nurse drop in to include the provision of sexual health services.

### What concerns us and what we're doing about it

- Almost one in four adults is a current smoker (the rate increases in areas of deprivation), similar to the Wales average. A framework Tobacco Control delivery plan has been developed for the county and a standard substance misuse (including tobacco) policy has been adopted in all secondary schools. An audit of secondary smoke-free policies and practice has been undertaken with secondary schools. It identified areas for development. Interventions are also being planned by the North Denbighshire Locality Leadership Team.
- Around half of adults in Denbighshire are overweight. Creating an active Denbighshire Action Plan (based on Denbighshire Leisure Strategy) is in development. The Let's Walk Denbighshire Walking Scheme continues to go from strength to strength, with 3,150 walks (93 of which are new) and 16 new potential walk leaders have been identified.

- There are some challenges (at national level) in respect of the monitoring database for the Healthy Schools Scheme (identified as 'red') but this is not affecting otherwise good delivery to schools, children and families.
- A good indicator of mental health and wellbeing is not available and a new source has not yet been identified (see Outcome 7 for information about suicide/self-harm prevention). We are not confident that we are able to demonstrate the difference we are making to people's mental health and wellbeing due to a dearth of good quality local indicators. It is hoped this may be addressed using qualitative research; this needs to be scoped and approved.

## Outlook

- It is anticipated that Indicators of Success will improve by the end of The BIG Plan as actions/performance measures move into 'Yellow' or 'Green'.

## Chapter 7: **OUTCOME 7: Children, young people and vulnerable adults in Denbighshire are safe**

**What this means:** That children, young people and vulnerable adults are protected from abuse, neglect, discrimination and exploitation, and live in safe and secure housing. Parents, carers, families, communities and services all have a role to play in keeping them safe and helping them keep themselves and each other safe.

Status Updated	Updated by:	Evaluation	Overall Evaluation
Q2 2012/13	CMIG	The number of children on the child protection register for over 12 months has doubled since last year, and this is reflected throughout Wales. The number of fires in Rhyl has decreased slightly with interventions in place to seek further improvement. The suicide rate has increased slightly. Implementation of Families First and the Talk To Me strategy will address concerns around suicide/self-harm.	Yellow (Good)

### What's going well

- All adult protection referrals were completed and risks were managed. This is excellent.
- Estyn highlighted safeguarding in Denbighshire as effective and Denbighshire County Council is building on these strong foundations by implementing a safeguarding action plan. A report about safeguarding by Denbighshire County Council has been presented to Partnerships Scrutiny. For more information, contact Rhian Evans, Scrutiny Coordinator or Rhys Hughes, Democratic Services Officer.
- To comply with the Conwy and Denbighshire Local Service Board, the Local Safeguarding Children's Board, Children and Young People's Partnership, and Estyn requirements; Families First service Providers will be required to comply with an annual audit of safeguarding good practice as part of the Service Purchaser's contract monitoring process. The Families First commissioning process and contracts reflect the recommendations from the Denbighshire Safeguarding Officer to provide consistency, guidance and good practice with a specific requirement for annual self-assessment and an annual audit of safeguarding practice with an emphasis on more robust safe employment practices. Families First has implemented safer employment practice in contracts for all commissioned elements. Evidence of the provider properly observing safeguarding issues formed part of the Criteria for Evaluation in conjunction with supplying policies.

## What concerns us and what we're doing about it

- The rate of all recorded crime is higher than the Wales median and has increased slightly since 2010/11. Insufficient data is available to explain this indicator.
- The number of children on the child protection register for over 12 months has more than doubled since last year, consistent with national trends, and this increase is also due to an increase in chronic cases of neglect and emotional abuse related to domestic abuse. LSCB reports annually to CYPSP/HSCWB in relation to safeguarding (and vice versa), and CYPSP discusses safeguarding as part of a standing agenda item. CYPSP recently funded LSCB to complete a consultation with children who have accessed services.
- The number of accidental fires in dwellings and non-fatal injuries in Rhyl represents 41 per cent of the total fires in Denbighshire; a multi-agency project is in place to tackle this.
- The suicide rate has increased slightly and is still higher than the Wales average (identified as 'red'). Plans are in place to produce a suicide/self-harm prevention action plan. Safeguarding of children, young people and adults will be strengthened by the implementation of a Talk To Me suicide/self-harm prevention action plan. Further work is required to establish mental health and wellbeing (see Outcome 6).
- Further work is required to raise awareness of abuse and neglect in vulnerable adults.
- The number of prosecutions for environmental crime has dropped slightly in 2011/12 (identified as 'red') as a result of increased numbers of fixed penalties which increased to 272 in 2011/12 compared to 238 in 2010/11, 78 in 2009/10 and 49 in 2008/09. It is expected that numbers of fixed penalty notices will continue to increase now that XFOR is in place.
- There is a gap in coordination of support preventing childhood injuries. A training programme is being proposed and this issue will be discussed by Early Entitlement in January 2013.

## Outlook

- The Families First programme (for example, family resilience, Team Around the Family and parenting in particular, and very soon, family support) will have a direct impact this Outcome. Performance measures, once they are confirmed, will be included here (such as the measures suggested below).
- The implementation of a Talk To Me suicide prevention strategy and - depending on the outcome - discussion around childhood injuries will strengthen performance in respect of this Outcome.

## Chapter 8: **OUTCOME 8: Denbighshire has a thriving and sustainable economy and a skilled workforce**

**What this means:** That businesses and social enterprises in Denbighshire will be prosperous and fit for our communities now and in the future, and the county will have a skilled and supported workforce. Infrastructure in the county will be suited to the needs of external investors and will be “business friendly”, attracting more opportunities to Denbighshire. “A robust recovery by the wider private sector is therefore vital to helping people into work and to tackling child poverty” (Child Poverty Strategy for Wales, 2011).

Status Updated	Updated by:	Evaluation Summary	Overall Evaluation
Q2 2012/13	CMIG	At a very difficult time economically, Denbighshire is providing a good level of support for people to volunteer and gain employment. Basic skills are improving, but numeracy skills in particular are still below the level considered essential in everyday life (interventions are in place). This Outcome should be revised to reflect partners' contribution to the new Economic and Community Ambition Strategy.	Orange (Acceptable)

### What's going well

- At a very difficult time economically, Denbighshire is providing a good level of support for people to volunteer and gain employment.
- The Local Service Board in Denbighshire is championing a number of exciting new projects to increase inclusion, improve skills and employment and improve support for the local workforce and volunteers (these will be important support programmes at a time of welfare reform changes and will improve the basic skills of participants).
- Three local organisations have gained the Investing in Volunteers Award and two are considering applying for accreditation during the remainder of The BIG Plan (CAB Denbighshire and Denbighshire County Council's Communication, Marketing and Leisure Service).<sup>15</sup>
- DVSC's Volunteer Centre continues to promote volunteering opportunities through the Volunteer Wales website and through meetings with external partner organisation and individuals from the public and third sectors. DVSC is working closely with WCVA regarding the development of Internships. DCC's initial volunteering questionnaire has been completed and data is

<sup>15</sup> Organisations that have achieved Investing in Volunteering award: Vale of Clwyd MIND, 2008/09 (re-assessed 2011/12); Bullies Out, 2008-9 and The Wallich, 2011/12).

being analysed. A Volunteering Policy is being drafted, together with a joint monitoring process to help support the management of volunteers.

- The Jobfinding Instructors and New Work Connections Project Caseworkers have sourced a wide range of work placements within local business communities. Participants' progress on their journey towards employment, education or training is measured using "Workstar", a distance travelled tool. Currently, 71 percent of all participants facing significant barriers to engagement have achieved at least one positive outcome.

### What concerns us and what we're doing about it

- Literacy and numeracy skills of further education 16-19 learners have improved since 2010/11, but a significant proportion of learners lack the level considered to enable a person to function satisfactorily in everyday life ('orange' and 'red' in this report, see Outcome 3 for information about intervention).
- Business survival rates have decreased slightly (please note enterprise survival after three years is a better indicator however data is not yet available for businesses born in 2009) (identified as 'red'). We have a dearth of information about the needs and aspirations of businesses in Denbighshire. This may be addressed through the implementation of the Economic and Community Ambition Strategy.

### Outlook

- Some actions have not yet started and it is anticipated that they will commence in 2013/14.
- The local and regional landscape has changed since the development of The BIG Plan. Positively, some of the actions here are being superseded by the development of a local and regional Economic and Community Ambition Strategy. The role of partners in this has yet to be determined and The BIG Plan will be updated as appropriate. It is anticipated that the Economic Ambition Strategy will be produced by April 2013. See also outcome 2.

\* Position at quarter 2 was +3 per cent which represents an increase year on year, but is below the expected target. This is due to seasonal influences with Meifod and Aberwheeler and it is anticipated that total sales revenue will reach +10 percent year on year.

\*\* This is likely to be an underestimate of number of volunteers in Denbighshire.

\*\*\* All of our participants with learning disabilities are supported into work placement opportunities wherever it is practicably possible for them to do. However, there is no requirement to report on this.
