Board relationship with CET/SLT

Programme level authority to deliver strategic change and to take decisions about developing the local economy derives from Cabinet handed down by Corporate Executive Team. The Programme SRO (Corporate Director, Economic and Community Ambition) is empowered to make judgements as to which decisions can be made at the Board and relayed directly to relevant Service Areas, and which decisions need to be referred back to CET and/or Cabinet. The latter are most likely to be decisions that will impact upon the wider organisation, those which may attract significant negative publicity or where the Programme Board view differs significantly from that of a Service Area.

Board relationship with DCC Service Areas

Communication between the Board and DCC Service Areas is two way:

- The Board may report to relevant Heads of Service the outcome of decisions on strategic issues where they relate to or impact on service delivery. The Programme Lead may also give specific direction or instruction to Heads of Service as a result of decisions made at the Board.
- Heads of Service will refer relevant project briefs / business cases to the Board to ensure that they are considered within the broader context of the Board's remit and to secure Board approval before setting up a project. From time to time Heads of Service will also be asked to report on progress with service plans and business as usual activities where these have influence on the programme outcomes.

Board relationship with Scrutiny Committees

The Board may be asked to present its programme to Scrutiny Committees, who will play a key role in providing assurance to the Council that the programme and its Board are delivering in line with the Corporate Plan.
