| DCC004 | The risk that the HR framework doesn't support the organisation's aims. The policies and procedures we have in place need to reflect current organisational strategy (e.g. flexible working), and HR need to offer support for those functions where the organisation requires it (e.g. restructures)  | B2       | B2       | <u>Link</u> |
| DCC006 | The risk that the economic and financial environment worsens beyond current expectations, leading to additional pressure on services and reduced income. The forthcoming settlement is lower than originally anticipated, and may only be relevant for 1 year, affecting our ability to effectively plan for the medium term   | A1       | C2       | <u>Link</u> |

| DCC017 | The risk that the ICT framework does not meet the organisation's needs. If we do not invest in appropriate technology at the right price, this will hinder our capability to deliver the efficiencies and savings required for the Modernisation priority. The main risk here is around the organisation taking decisions to invest in IT infrastructure that is not effective in reducing overheads. This can happen for two reasons: 1) we don't understand the current and necessary ICT requirements, and 2) we don't accurately predict the anticipated benefits. | DCC014 | The risk of a health & safety incident resulting in serious injury or the loss of life. This could be as a result of an ineffective H&S management system; inadequate fire control systems (infrastructure);   | C2       | E2       | <u>Link</u> |
| DCC016 | The risk that the impact of welfare reforms is more significant than anticipated by the council. Welfare reform has potentially significant implications for a large proportion of residents, and also on the council  | B2       | ВЗ       | <u>Link</u> |
| DCC018 | The risk that programme and project benefits are not fully realised. The council currently does consistently deliver all benefits from projects. Some of the issues include: inconsistent management;  | B2       | B2       | <u>Link</u> |
