| <p>Supplementary Planning Guidance notes (SPGs) amplifying the development plan policies in a clear and concise format with the aim of improving the process, design and quality of new development.</p> <p>The availability of car parking is a key element in managing car use and a major influence on the choice of transport. Car parking can take up large amounts of space in developments thereby reducing densities. Poor design and layout of parking areas can make it more difficult to provide effective walking, cycling, and public transport links.</p> |

They do not set out any new policies.</p> <p>This SPG is linked to LDP policy ASA3 'Parking Standards', which was assessed as part of the LDP document production – see Denbighshire LDP 'Equality Impact Assessment Report (May 2011)'. It was concluded in table2: 'Screening of the Denbighshire Local Development Plan policies' that this policy is likely to 'Promote equality of opportunity by ensuring that new developments are accessible to all users, including mobility impaired'.</p> |
