Equality Impact Assessment

Denbighshire Caravan Site Strategy for Managing Resedential Occupancy

Contact: Isobel Bourke-Bennett, Business Improvement & Modernisation
Updated: <DD.MM.YY>

1. What type of proposal / decision is being assessed?

A project proposal

2. What is the purpose of this proposal / decision, and what change (to staff or the community) will occur as a result of its implementation?

The purpose of this activity is to conduct a review of the occupancy of caravans across Holiday sites within Denbighshire and to identify a strategy for implementation across all services within the Council.

3. Does this proposal / decision require an equality impact assessment? If no, please explain why.

*Please note: if the proposal will have an impact on people (staff or the community) then an equality impact assessment **must** be undertaken*

Yes	<If no, briefly summarise the reasons for this decision here, and skip ahead to the declaration at the end>
-----	---

4. Please provide a summary of the steps taken, and the information used, to carry out this assessment, including any engagement undertaken

(Please refer to section 1 in the toolkit for guidance)

Research has been undertaken within Planning and Public Protection which has identified the wider problem on the impact to more services across the council. From early indications, there are a number of protected characteristics impacted which will be considered throughout the review and any proposed implementations will capture the requirements of people with protected characteristics.

5. Will this proposal / decision have a positive impact on any of the protected characteristics (age; disability; gender-reassignment; marriage and civil partnership; pregnancy and maternity; race; religion or belief; sex; and sexual orientation)?

(Please refer to section 1 in the toolkit for a description of the protected characteristics)

Age & Disability

Previous studies have shown that those living in caravans tend to be from the more vulnerable sectors of society (including those older in age, with higher social care needs). As such if the decision is made to allow some sites to become residential and therefore that the quality of accommodation is improved (to allow for year long residency) or that individuals are re-housed in more appropriate accommodation then this cohort will significantly benefit from the project.

Race - Gypsy & Travellers

For gypsies and travellers it may be that through establishing clarity in terms of the eligibility of caravan dwellers to council services that they gain access to additional services that they were previously unaware of.

6. Will this proposal / decision have a disproportionate negative impact on any of the protected characteristics (age; disability; gender-reassignment; marriage and civil partnership; pregnancy and maternity; race; religion or belief; sex; and sexual orientation)?

Age & Disability

Conversely, if enforcement and eviction from sites is deemed the most appropriate response, and a housing provision has not been allocated, then this cohort may be at a significant risk of becoming homeless and therefore be negatively impacted.

Race - Gypsy & Travellers

The project may negatively impact upon gypsy and travellers as if the eligibility criteria for some services were changed or enforced then they may no longer be able to access these services.

7. Has the proposal / decision been amended to eliminate or reduce any potential disproportionate negative impact? If no, please explain why.

No	We are within the very early stages of the project and as such the full extent of any negative impact of the project are yet to be identified. Any potentially negative impacts will be mitigated
