IMPACT ASSESSMENT SUMMARY AND CONCLUSION

Before we look in detail at the contribution and impact of the proposal, it is important to consider how the proposal is applying the sustainable development principle. This means that we must act "in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs."

Main conclusions

This impact assessment is to replace existing methods of buying services and as such is a different model for doing so. It does not assess the specific activates (e.g. bus services, which have their own WIA). The DPS itself, therefore, is unlikely to have any further impacts when compared to existing ways of procuring.
