Specific actions in 2018/19 to support year 1 priorities:

1. Developing the Next Steps for Community Empowerment.

2. Social Prescribing will support the well-being needs of individuals and our communities, and will as a result mean fewer medical prescriptions and lower non-medical expenditure on services needed due to lifestyle related conditions. People will also be enabled to say in their own homes for longer.

3. Better support tenants and those at risk of homelessness. This will not only result in less homelessness and more stable tenancies, but mitigate health associated risks and support a better quality rented sector.

4. Dementia Support Action Plan to better support dementia sufferers and their carers. PSB partners will work towards becoming dementia friendly organisations that help people live independently for longer.

Progress Update – March 2019						
<p>A workshop was held on June 27, 2018, attended by some 40 professionals with good representation across partner organisations. In-keeping with the PSB’s principle of building on existing pledges from organisations’ well-being plans, delegates were presented with information about existing pledges and asked to consider areas of need where collaboration would add value, focussing on the following themes:</p> <ul style="list-style-type: none"> i. Housing ii. Employment Opportunities iii. Capacity Building iv. Provision of Health & Well-being Support v. Infrastructure <p>The output of the workshop was considered by the PSB at its meeting in September, agreeing three areas of work for the priority where the PSB felt it could add value through early intervention, focusing on the local dimension, and involving a different set of partners. Risks to Manage:

This is a complex area of work where we have found that a great deal is already taking place. The challenge remains for the PSB to understand where it can most add value to this busy, but important agenda, not only locally, but regionally.

It is also acknowledged that now the plan is in Delivery Phase, it is important to ensure that projects are adequately resourced in order to achieve what is set out in the Plan.
