The significant number of incidents for FAH are mainly due to SC2. As SC2 opened it was prudent to record all incidents however minor and whether due to the facility use or not. The purpose of this was to obtain a full picture at the outset.

An abridged list of incidents at SC2 is provided for information commencing at page 5 of this report. It can be seen from the list that most of the incidents are insignificant.

Now that a picture has emerged in SC2 only truly reportable incidents are being recorded at the corporate level on the electronic system and the number of reports has significantly reduced.
