

NOTICE OF MOTION

Notice of Motion put forward by Councillor Rhys Thomas for consideration by Full Council:

“In relation to the Local Government (Wales) bill and the recent member training on this subject we ask that this council attempts to take the lead in attempting to attract as diverse a group of citizens as possible to engage with the local democratic process.

To this end we ask that the Chief Executive and senior officers report back to this full Council in 12 months time with a plan of action as to how a more diverse range of citizens can be encouraged to stand for the council at the next county council elections.

We believe that the steps outlined in the Local Government bill do not go far enough and that Denbighshire could lead the way in promoting citizen engagement in the important role played by county councils.”
