IMPACT ASSESSMENT SUMMARY AND CONCLUSION

Before we look in detail at the contribution and impact of the proposal, it is important to consider how the proposal is applying the sustainable development principle. This means that we must act "in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs."

Score for the sustainability of the approach

 (2 out of 4 stars) Actual score : 18 / 30.

Implications of the score

The proposals are for the allocation of resources on a needs basis based on existing building knowledge through building condition and suitability information. The proposals are for maintenance expenditure and this involves amendments or improvements to existing provision rather than direct amendments to provision. Therefore many factors regarding sustainability will not be directly impacted.

Main conclusions

The overall proposals due to their nature will have a neutral impact. Some elements will be positive but overall it would be difficult to justify a significant positive impact from a well-being perspective. Many of the schemes are of relatively low value and whilst the proposals will have a clear positive impact on the school estate as the proposals involve improving existing assets rather than amending provision the impact will be more neutral.

Evidence to support the Well-being Impact Assessment

- We have consulted published research or guides that inform us about the likely impact of the proposal
- We have involved an expert / consulted a group who represent those who may be affected by the proposal
- We have engaged with people who will be affected by the proposal

THE LIKELY IMPACT ON DENBIGHSHIRE, WALES AND THE WORLD

A prosperous Denbighshire

Overall Impact	Positive
Justification for impact	The proposed works will improve the efficiency of the school estate and the investment may have a benefit in the short term on the local economy.
Further actions required	The scale of the works make additional benefits difficult to achieve.

Positive impacts identified:

A low carbon society	Proposed works will impact on the energy efficiency of buildings.
Quality communications, infrastructure and transport	The proposed works will improve the condition of the schools estate and therefore improve its infrastructure.
Economic development	The additional expenditure may benefit the local economy subject to procurement routes.
Quality skills for the long term	Due to the nature of the proposed works there would be limited scope for community benefits and training packages based on works proposed.
Quality jobs for the long term	Due to the nature of the proposed works there would be limited scope for community benefits and training packages based on works proposed.

A Denbighshire of cohesive communities

Overall Impact	Neutral
-----------------------	---------

Justification for impact	The proposals will have a neutral impact on a Denbighshire of cohesive communities. There will be some improvements to school site security through some of the work to be undertaken on a minor scale and this extent is the rationale behind a neutral impact.
Further actions required	These works will have limited impact and its difficult to seek additional positives.

Positive impacts identified:

Safe communities and individuals	Elements of work to school sites will improve the safety of pupils

A Denbighshire of vibrant culture and thriving Welsh language

Overall Impact	Neutral
Justification for impact	The proposals within the allocation will involve some expenditure within welsh medium schools. However this will not have a significant impact on people using Welsh or promoting the Welsh Language.
Further actions required	The works will have limited impact on the welsh language.

Positive impacts identified:

People using Welsh	N/A
Promoting the Welsh language	N/A
Culture and heritage	N/A

Negative impacts identified:

People using Welsh	N/A
Promoting the Welsh language	N/A

A globally responsible Denbighshire

Overall Impact	Neutral
Justification for impact	The nature of the works with the proposals including over 30 potential schemes will provide low opportunity to securing community benefits. Existing frameworks will be used which involve some local contractors / suppliers.
Further actions required	The small scope of some of the works reduces opportunities in this area.

Positive impacts identified:

Local, national, international supply chains	The works will have limited scope for community benefits as the majority of schemes will be of relatively low value less than £25k
Human rights	N/A
Broader service provision in the local area or the region	N/A

Negative impacts identified:

Local, national, international supply chains	N/A
Human rights	N/A
