

Internal Audit of Contract Management

First Follow Up Review

Purpose & Background Information

Our original review of Contract Management was completed in January 2020 giving a low assurance rating. This was due to a lack of coordination and central responsibility for contract management and an absence of staff training and guidance. In addition, the review found inconsistent recording of information on contract management by services including performance monitoring and risk assessments to identify and manage major risks.

In July 2020, Corporate Governance and Audit Committee identified that the original action plan contained actions which were no longer feasible given the suspension of Corporate Support Services Review at the height of the Covid-19 pandemic. A revised action plan was agreed at Corporate Governance and Audit Committee in January 2021 to provide assurance that suitable actions had been devised to address the issues identified in the original report. This first follow up review is to establish progress made in addressing those issues.

It should be noted that the updated opinion is based on the assumption that systems and controls as previously identified during the original audit remain in operation and are being complied with in practice. The purpose of our follow up exercise is not to retest the operation of controls which have already been assessed, but to review how management has responded to the action plans following our initial work.

Audit Opinion

Limited progress has been made in addressing the actions as set out in the revised action plan agreed in January 2021. The full implementation of a number of the actions is dependent on the approval by the Senior Leadership Team (SLT) of the Contract Management Framework. At the time of our review, the draft framework had not been reported to SLT as the Head of Legal, HR & Democratic Services has had a number of competing priorities during the first half of the year most notably in recruitment for key roles. It is on the agenda for SLT on 15 July 2021. Ongoing capacity pressures and lack of dedicated contract management resource have also restricted the ability to provide the required contract management oversight, training and guidance.

Based on the extent of progress made in implementing the agreed actions we are providing a ‘low’ assurance.”

4.2	Proactis has the potential to send out reminders if monitoring is not completed/uploaded through creation of tasks. This will be included as part of the Proactis contract management training (see action 2.1).	The level of performance monitoring around contracts is weak with staff not recording meetings, maintaining performance records and completing information around KPIs (key performance indicators). Major Risk ●	Interim Procurement Manager by 30/04/2021	Not yet implemented. There is limited evidence that the tasks function on Proactis is being used to monitor contract performance. A sample of 6 approved contracts shows that tasks are not being created at the outset to monitor performance. While training can be delivered on this it is the responsibility of the contract manager to ensure that it is recorded and monitored. Revised action date 30/10/2021
5.1	Review of the contract management system confirms it has the functionality to record contract risks. Mandatory field to be added to Proactis to capture the information and enable reporting	Significant contracts in a number of cases did not have a risk assessment so that major risks identified could be managed accordingly. Without this, major risks could materialise and cause significant impact where it could have been avoided. For those contracts that had been assessed, there	Interim Procurement Manager by 31/03/2021	Not yet implemented. A mandatory field can be added easily, however this functionality is also dependent on the approval of the Contract Management Framework by SLT. Revised action date 30/10/2021

	that the framework is applied appropriately.	major risks could materialise and cause significant impact where it could have been avoided.		
5.4	See also action 1.1, Heads of Service to ensure that any contracts deemed as a significant risk to the service or council are captured on the service risk register where appropriate.	For those contracts that had been assessed, there is little evidence to show they are updated regularly. Major Risk ●	n/a	In Progress. There are a few examples of significant or strategic contracts being captured on service risk registers. The risk of poor performance of contracted services is captured in broader terms. The approval and subsequent circulation of the framework should encourage inclusion on both contract and service risk registers.
6.1	Community Benefit Hub will monitor all community benefits centrally to coordinate and ensure that they are delivered. Links to Internal Audit review of Section 106 agreements	Currently, services are not including community benefits into contracts worth between £25k and £1m. Where it has been included, very little monitoring is being carried out.	Framework Manager - Legal, HR & Democratic Services by 31/03/2020	Complete: The Community Benefit Hub has been established with recent software used to monitor community benefits. Contracts above the mandatory £1m threshold include community benefits.
