LOCAL MEMBERS: Cllr Bobby Feeley
Cllr Huw Hilditch-Roberts
Cllr Emrys Wynne (c)

Late representations/member comments:

Email received from Councillor Bobby Feeley stating that she was of the opinion that some of the trees are in urgent need of pollarding as in their present state they could be a danger to the public and should be done more urgently than the TPO. Councillors Huw Hilditch-Roberts and Emrys Wynne also supported this statement.

The Council's Tree Inspector has been made aware of this statement and will be looking into this matter in due course.

Email received from Councillor Meirick Lloyd-Davies regarding clarification of the location of the trees. Please see the plan below taken from the provisional Tree Preservation Order No.7 (2021):

Location of 4 trees proposed for TPO.

Item No.12 - Page

Code No: N/a

Location: Awel y Mor Offshore Windfarm

Proposal: Officers seeking Members approval to make representations on the DCO application and submit a Local Impact Report under delegated powers.

The Council has received a letter from the Planning Inspectorate which gives notice that an **application by Awel y Môr Offshore Wind Farm Limited for an Order Granting Development Consent for the Awel y Môr Offshore Wind Farm project** is likely to be submitted to them on the 20th April.

The letter outlines the process to be followed once an application is submitted, and is summarised as follows:

Adequacy of consultation

On receipt of an application, the Planning Inspectorate has 28 days to decide whether or not to accept the application.

A Consultation Report should be included with the application, setting out the Applicant's Pre-application consultation processes, a summary of the relevant responses to its consultation and how it has taken account of responses received in developing the application.

As soon as an application is received, the Planning Inspectorate will invite host and neighbouring local authorities, to submit an 'Adequacy of Consultation Representation' which the Planning Inspectorate must have regard to in deciding whether or not to accept an application. This invitation will include the Consultation Report in order to inform the local authority's representation about the adequacy of the Applicant's Pre-application consultation.

This Adequacy of Consultation Representation means a representation about whether the Applicant has complied with the legal requirements relating to consultation and publicity as set out in the Planning Act 2008.

Local authorities will have 14 calendar days to submit an Adequacy of Consultation Representation.

Local impact reports (LIRs)

The Planning Inspectorate will not consider the merits of an application unless it is accepted for examination.

The Adequacy of Consultation Representation is not therefore a representation on the impacts of the scheme or the merits of the case, and the submission of any such representations prior to an acceptance would be premature.

Should the application be accepted, host authorities will automatically be registered to participate in the examination. Neighbouring authorities are encouraged to register on the Planning Inspectorate website at the appropriate time.

If the application is accepted for examination, the Examining Authority will invite local authorities to submit a LIR which should give details of the likely impact of the Proposed

Development upon the Authority's area. The deadline for the submission of the LIR will be set by the Examining Authority following the Preliminary Meeting, which is likely to take place a few months after the acceptance of an application.

Local authorities are therefore encouraged to begin preparation of their LIR now, and put in place internal approval procedures.
