### **Score for the sustainability of the approach**

**3 out of 4 stars**

**Actual score : 33 / 36.**

### **Summary for each Sustainable Development principle**

#### **Long term**

Proposed increase is to ensure that the Council can continue to improve services and invest in people and infrastructure. The proposals form part of a medium term budget process to manage resources.

#### **Prevention**

The proposals include significant investment in zero Carbon and Biodiversity project. There is also significant investment in Social Care and Children's Services and Schools. The Council Tax Reduction Scheme helps ensure that those in most need are protected from the increase to Council Tax.

## Main conclusions

The impacts are broadly positive. This is because the Council Tax rise proposed supports a budget that protects existing service levels and increases investment in social care, schools and in investment in key priorities such as highways and the environment. This year the proposed increase of 3.8% is below inflation and below the 4.35% average increase over the last 4 years. Clearly the

impact is the increased tax paid by residents. The main mitigation is that around 25% of tax payers receive financial support through the Council Tax Reduction Scheme. However, it is recognised that for some taxpayers, the proposed rise will create an additional financial burden, particularly for those with relatively fixed incomes or little disposable income.
