Internal Audit Strategy 2023-24

1. Introduction

- 1.1 The Internal Audit Service is an independent and objective internal team that provides assurance and advice to all levels of management and elected members on the quality of operations within the Council. We particularly focus on governance, risk management and control arrangements.
- 1.2 Internal Audit will continue to deliver its services in accordance with the Public Sector Internal Audit Standards and the Internal Audit Charter which sets out its purpose, authority and principle responsibilities.
- 1.3 The Internal Audit Strategy for 2023/24 aims to support the council in making the best use of its resources and takes into account strategic risks and the corporate priorities. The internal audit plan and the work of internal audit must focus on the things that matter to the organisation, and the opinions and improvement suggestions that internal audit provide must help the organisation achieve its objectives and be valued by stakeholders.
- 1.4 This Internal Audit Strategy contains the proposed internal audit activity for the year and gives an outline scope of coverage for each area of work. The plan must retain sufficient flexibility to allow us to react to changes in the risk environment. Any changes will be agreed with management and reported to the Governance & Audit Committee.
- 1.5 The plan of work provides the council with objective opinions on the effectiveness of the organisation's risk management, governance and control arrangements. These are key elements of the evidence which informs the:
 - Internal Audit Annual Report; and
 - Annual Governance Statement.
- 1.6 The Internal Audit structure comprises six full-time equivalent (FTE) members of staff, comprising the Chief Internal Auditor, 1 Career Pathway Principal Auditor, 3 Career Pathway Senior Auditors and 1 Auditors. This equates to 1,008 days available for productive assurance work. The number of productive days does

Internal Audit Strategy 2023-24

not include “non-productive” days such as annual leave, training, illness, management (e.g. 121s) and team meetings.

2. High Level Audit Plan

2.1 The Audit Plan 2023/24 takes into account the:

- Council’s corporate and service risk registers;
- corporate assurance requirements, including the Annual Governance Statement;
- the outcome of previous audits and those of other assurance providers;
- discussions with service management teams;
- Planned work deferred from 2022-23.

2.2 The plan remains flexible to ensure that it reflects any emerging or changes to risks and priorities of the Council. It will be regularly reviewed with services, and updated as necessary, to ensure it remains valid and appropriate so that internal audit resource is deployed effectively. As a minimum, the plan will be reviewed after six months.

2.3 The table on page 7 lists the priority audit areas for the year.

3. Counter Fraud and Corruption Work including NFI

3.1 Counter fraud arrangements are a high priority for the Council and assist in the protection of public funds and accountability. As per the Internal Audit Charter, Internal Audit is not responsible for managing the risk of fraud – this lies with the Council’s senior management.

3.2 Internal Audit will continue to investigate instances of potential fraud and irregularities referred to it by management and will also carry out pro-active counter fraud and corruption testing of systems considered to be most at risk of fraud. This is informed by CIPFA’s ‘Code of Practice on managing the risk of fraud and corruption’. Notable areas of fraud nationally include: Housing

Internal Audit Strategy 2023-24

Benefit, Council Tax, Housing and Tenancy, Procurement, Insurance, Abuse of Position, Blue Badges and Direct Payments (Social Care).

- 3.3 Audit Wales facilitates a national data matching exercise (National Fraud Initiative – NFI) every two years. Work on the 2020/21 is complete and the 2022/23 exercise has recently commenced. Internal Audit engages with relevant Council services to ensure system reports are extracted accurately and on time, and that data matches are reviewed and resulting action is taken as necessary. Progress will be reported to Governance & Audit Committee periodically as part of the Internal Audit Update report.
- 3.4 Internal Audit captures details of referrals where there are allegations/suspicions of fraud or corruption taking place and this is reported to the Governance & Audit Committee as part of the Internal Audit Update Report. An Annual Fraud Report will be included as part of the Internal Audit Annual Report to summarise and reflect on the work that has taken place during 2022/23.

4. Partnership working with other auditors

- 4.1 We continue to work to develop effective partnership working arrangements with other local authority audit services. We participate in audit networks, locally and nationally, which provide for a beneficial exchange of information and practices. This often improves the effectiveness and efficiency of the audit process, through avoiding instances of “re-inventing the wheel”, particularly in new areas of work which has been covered in other authorities. We continue to maintain an effective working relationship with the Council’s external auditors, Audit Wales, and meet regularly to exchange information and minimise potential duplication.

5. Proposed Audit Priorities for 2023-24

- 5.1 This year's audit plan has been developed through discussions with senior and middle management and aligned with the corporate priorities and corporate and service risks registers and the council's risk appetite. It is also informed by previous audit results, horizon scanning and current themes such as Climate Change. For 2023/24, key considerations for setting the plan include:
- Onboarding new staff who have not worked in Internal Audit before and assisting them with training and support;
 - financial challenges and related budget savings required to be delivered by the council;
 - organisational changes including increased partnership working and major projects;
 - organisational resilience and sustainability.
- 5.2 All audit areas identified as high priority within the plan will be undertaken together with annual audits of financial areas for the Section 151 Officer with particular focus on key changes around the new financial system currently due to go live on 1 April 2024. Audit areas rated as medium priority will be kept under review and any changes or emerging risks will be captured and the audit plan updated as necessary.
- 5.3 The following list shows the current priority projects for 2023-24 that has been agreed between the CIA and each service management team and directors. The Governance and Audit Committee will continue to receive a regular progress update on Internal Audit work actually undertaken, which will include a list of upcoming work from the project priority schedule.
- 5.4 A summary brief for each audit area is listed in the table below, detailed scope of work will be developed and agreed with management prior to the start of each review. This is to ensure that key risks to the operation or function can be considered during the review.

7.

Public Sector Internal Audit Standards (PSIAS)

7.1 PSIAS 1312 states that “External assessments must be conducted at least once every five years by a qualified, independent assessor or assessment team from outside the organisation. The CAE [Chief Audit Executive, which is Denbighshire’s case is currently the CIA must discuss with the board:

- The form and frequency of external assessments.
- The qualifications and independence of the assessor or assessment team, including any potential conflict of interest.”

7.2 This external assessment was completed in 2017-18 by the arrangement of the Welsh Chief Auditors Group through a peer review by a local authority Internal Audit Service. Denbighshire’s assessment was carried out by Gwynedd County Council’s Internal Audit Service and reported that Denbighshire Internal Audit Services:

“...generally conforms with the PSIAS. Some opportunities for further improvement have been identified ... but none of the items of partial or non-conformance are considered to be a significant failure to meet the Standards”. Submitting the plan to the Corporate Governance & Audit Committee and Senior Leadership Team for review and agreement.

7.3 The CIA has updated the self-assessment to capture the partial conformance items raised in the external assessment. The Quality Assurance Improvement Plan was reported to Governance & Audit Committee in November 2018 and an update was provided as part of the Annual Internal Audit Report in June 2019, July 2020, June 2021 and June 2022. A further update will be included as part of the Annual Internal Audit Report in June 2023.

Internal Audit Strategy 2023-24

7.4 The Internal Audit Charter has been updated to capture the requirements highlighted in the report and a review of Ethics & Culture has recently been completed which means that all improvement actions arising from the external assessment have been addressed. A further update will be provided to the Governance & Audit Committee in June 2023 as part of the Annual Internal Audit Report.
