

Summary of data received

In total, the Council received 228 full or partial online survey responses and 12 full or partial paper responses to the survey (a total of 240 survey responses).

Due to concerns about the potential for the consultation to be 'hijacked' by various campaign groups (either in favour or against any form of extra taxation), the Council requested that all responses be verified by respondents providing their name and address.

The Council also stated that duplicate data and any data violating the Council's zero tolerance policy on abusive language would be removed and these responses would not be considered. In total:

- 1. 175 verified survey responses were received
- 62 surveys were only partially completed and therefore the responses could not be verified. Of these, 15 entries were duplicate partial completions from 6 unique IP addresses.
- 3. 1 duplicate verified survey response was removed
- 4. 2 responses were removed for violating the Council's zero tolerance policy on abusive language

Respondent profile:

The survey comprised mainly of multiple choice questions, either single response or rankbased. These aimed to find out:

- Whether respondents supported the proposals
- The impact respondents felt the proposals may have on the supply of affordable housing, rental housing, house prices, the tourism industry, the Welsh language and Welsh culture.

We asked respondents what their interest or reason for responding was.

Which of the following best applies to you?		
Response	Number of Respondents	
		Respondents
Live and/or work in Denbighshire only
