Summary of Corporate Risk Register July 2024

Corporate Risk Register

The Council's Corporate Risk Register (CRR) contains the Council's most serious risks. It is owned by Cabinet and the Senior Leadership Team (SLT).

We define our risks using a scale of likelihood of the risk occurring and the impact of the risk occurring. We also determine whether the risk is in line with our risk appetite. Risk appetite is the level of risk we are prepared to tolerate or accept in pursuit of our long term, strategic objectives.

The Risk Management Strategy is available [on our website](#).
