Ruthin, 31st October 2024

DRAFT – Annual Monitoring Report 2024

1. Summary

Annual Monitoring Reports are an important instrument to assess the achievement of LDP Objectives, the effectiveness of local policy as well as the delivery of development on allocated sites. This report covers the period April 2023 to March 2024, and is the 10th iteration since LDP adoption in 2013.

Local policy performance (rf. Appendix 1) and Sustainability Appraisal Objectives (rf. Appendix 2) are assessed on the basis of the latest information that is available from different sources such as, planning records, statistical data and site surveys. There are other limitations as individual policy objectives might, for example, be outweighed by material considerations during a planning application's determination process.

Monitoring frameworks are an inherent part of the Local Development Plan, and, thus, were subject to examination at the plan preparation stage. Individual elements, for example, indicators or review triggers can only be modified as part of completing the Local Development Plan review process. Since the monitoring framework can only be amended by way of completing the plan review, Denbighshire County Council is still monitoring housing delivery, employment land provision etc. and local policy performance against a framework that was current in 2013.

It must be noted that the Denbighshire County Council Local Development Plan was adopted before the publication of the Welsh Government "Development Plans Manual, Edition 3" which means that it does not contain all the elements, which are now required to be monitored. Prior to adopting the replacement Local Development Plan, data such as, housing trajectory is provided for information only.

DRAFT – Annual Monitoring Report 2024

There are three principal topic areas that require particular attention when preparing the replacement Local Development Plan:

- Annual housing delivery targets must be aligned to revised Welsh Government population and household projections; and
- Addressing the accommodation needs of Gypsy and Travellers; and
- Town Centre Regeneration, especially focussing on the decline in ‘bricks and mortar’ retail outlets on the ‘High Street’.

DRAFT – Annual Monitoring Report 2024

2. Background

In Wales, Local Development Plans (LDPs) are prepared by Local Planning Authorities (LPAs) to shape the design of planning proposals and direct development to the most sustainable locations in the county. These documents set out the scale of growth and forms of land use as identified by evidence for the plan period, which is typically about 15 years. LDPs principally comprise of a growth and spatial strategy, local policies, site allocations as shown on the accompanying proposals maps, and a monitoring framework.

The Annual Monitoring Report (AMR) is an important instrument to assess progress towards achieving the LDP Objectives, performance of local policy as well as delivery of development on allocated sites. Monitoring frameworks are an inherent part of the LDP, and, thus, were subject to examination at the plan preparation stage. Individual elements, for example, indicators or review triggers can only be modified as part of completing the LDP review process. Besides local policy performance, AMRs report back to Welsh Government (WG) on the impact of national policy changes on development in their respective administrative areas.

In February 2021, Welsh Government introduced a new tier of development plans at national level – “Future Wales. The National Plan 2040” (FW). Consistent with the provisions that are contained in the Planning and Compulsory Purchase Act 2004 (as amended), see Section 38(4), in Denbighshire, the development plan consists of FW (2021) and the Denbighshire Local Development Plan 2006 – 2021. Since WG “Planning Policy Wales” (PPW) may also be material to decision-making on planning proposals, it becomes increasingly difficult to assess the sole performance of local policy in light of newer development plan policy and planning policy at the national level.

The Denbighshire County Council (DCC) LDP 2006 – 2021 was adopted on the 4th of June 2013. Although already beyond the plan period, the Welsh Minister for Housing and Local Government clarified in a letter to local planning authorities, “*Plans adopted prior to 4 January 2016 will remain the LDP for determining planning applications until replaced by a further LDP.*” DCC LDP AMR 2021, Appendix 1, contains the WG Minister’s letter in full.

DRAFT – Annual Monitoring Report 2024

DCC is duty bound to produce an AMR for the adopted LDP under the obligations of Section 76 of the Planning and Compulsory Purchase Act 2004 (as amended) and Section 37 of the Town and Country Planning (Local Development Plan) (Wales) Regulations 2005 (as amended). The AMR must be submitted to WG by the 31st of October of each year and be published on the Council's webpage.

The 2024 AMR covers the period between 1st April 2023 and 31st March 2024, and is the 10th report that has been produced since 2014.

DRAFT – Annual Monitoring Report 2024

3. Methodology

Welsh Government “Development Plans Manual. Edition 3” (2020) and the adopted DCC LDP are the two principal sources of information on how to prepare the report and content. ‘Development Plans Manual’ Chapter 8 not only provides guidance on the structure and core elements for producing a monitoring framework but also specific information on what needs to be contained in the ‘housing trajectory’ and specific indicators on national policy. Reflecting on the manual’s provisions, DCC LDP Chapter 7 details locally defined indicators, policy targets and review triggers by providing the template for the assessment tables.

Local policy performance (rf. Appendix 1) and Sustainability Appraisal Objectives (rf. Appendix 2) are assessed on the basis of latest information that is available from different sources such as, planning records, statistical data and site surveys. There are however limitations and it’s crucial to be aware of them when drawing conclusions in terms of local policy performance:

- 1) Data collection (time, frequency, purpose): Is data collected per financial or calendar year? What was the original purpose of data collection? Have indicators been amended to reflect changes in national policy?
- 2) ‘Quality assurance ‘ when using information; and, most importantly,
- 3) Individual policy objectives might have been outweighed by other material considerations during a planning application’s determination process.

DRAFT – Annual Monitoring Report 2024

4. LDP Review

The DCC LDP Monitoring framework was produced in line with local and national policy objectives, programme targets and an evidence base that all were current at the time of Plan adoption. Besides a comprehensive review of the LDP, there are no alternative means to adjust the monitoring framework to reflect those changes. National policy and empirical evidence have changed since June 2013. For example, Technical Advice Note 1 “Joint Housing Availability Studies” was revoked, including the requirement to maintain a 5-year housing land supply. WG population and household projections that were published after LDP adoption are much lower than the ones, which were used to prepare the LDP.

There are three principal topic areas that require particular attention when preparing the replacement Local Development Plan:

- Annual housing delivery targets must be aligned to revised Welsh Government population and household projections; and
- Addressing the accommodation needs of Gypsy and Travellers; and
- Town Centre Regeneration, especially focussing on the decline in ‘bricks and mortar’ retail outlets on the ‘High Street’.

In 2017, DCC prepared a Review Report on the adopted LDP and consulted with members of the public on the recommendation to carry out a ‘full revision’, i.e. preparation of a replacement plan. LDP Review Report and a Delivery Agreement (DA), including Community Involvement Scheme (CIS), were subsequently placed in front of WG for consideration and the DA with CIS was approved in May 2018.

DRAFT – Annual Monitoring Report 2024

While the Council carried out comprehensive gathering and updating of evidence, the Coronavirus pandemic caused significant delays to progress between 2020 and 2022/23. Council resources were focused on addressing the prevailing health challenges, and the planning profession was required to respond to these challenges with new strategies, programmes and requirements on how places should be designed and used in the aftermath. These changes (economic, environmental and social) in combination with the release of FW necessitated a fundamental review of previously prepared evidence. WG approved a revised DA with CIS in December 2022.

The preparation of the replacement plan has been progressed with the Council approving the LDP Preferred Strategy on 9th May 2023, and work continues towards the public consultation on the Deposit replacement LDP.

In Denbighshire, FW “Policy 21 – Regional Growth Area – North Wales Coastal Settlements” principally defines land to the north of the A55 trunk road as regional growth area; places where the next LDP shall focus growth – residential, economic, tourism, etc. Rhuddlan and St Asaph, alongside the major coastal towns of Rhyl and Prestatyn, are susceptible to flooding. Many parcels of land are designated flood zones in accordance with Technical Advice Note (TAN) 15 ‘Development Advice Maps’ and their replacement ‘Flood Maps for Planning’.

WG started work on the revision of TAN 15, draft title “Development, flooding and coastal erosion” in October 2019; with an anticipated publication in 2021. The purpose of the new document is not only to update policy on flood risk, including the impact of climate change, but provide clarity on roles and responsibilities as well as the creation of sustainable places while embedding ‘placemaking’ as set out in FW and PPW. LPAs are still awaiting the publication of TAN15 in July 2024.

DRAFT – Annual Monitoring Report 2024

The delay to TAN15 has a great effect on the delivery of the DCC replacement LDP in accordance with the timetable that is set out in the DA. Uncertainty in terms of national policy and flood risk designations prevents the completion of candidate site assessments and the preparation of local policy on, for example, town centre regeneration, tourism or safeguarding employment sites. Depending on TAN 15 details, the Council could be in the difficult position of having to choose between compliance with FW (Regional Growth Area) and PPW (TAN, 'Placemaking'). When TAN15 has finally been published, there is also the need to prepare an update to the Strategic Flood Consequence Assessment, which is a crucial component of the evidence base.

It must be noted that the WG "Development Plans Manual. Edition 3" does not account for such events when indicating that the preparation of a replacement plan should take about 3.5 years.

DRAFT – Annual Monitoring Report 2024

5. National Policy Changes

WG PPW Edition 11 (2021), Chapter 6 “Distinctive and Natural Places” was subject to significant changes; particularly with regards to topics such as, biodiversity and green infrastructure. Public consultation took place between March and May 2023. Unlike previous iterations, national policy changes took effect via a ‘Heads of Planning’ letter, dated 11 October 2023, whereas the consolidated version of PPW Edition 12 was not published until February 2024.

Latest national policy on biodiversity and green infrastructure do not only align to Future Wales Outcomes and development plan policy but exceed the provisions on environmental protection that are contained in the adopted LDP. For example, LDP policy VOE 5 contains reference to conservation and enhancement but does not request the submission of a ‘biodiversity statement’ and adherence to ‘net gain for biodiversity’ with every planning application.

Aligning to the three tiers of development plans and adhering to the principle of conformity with PPW, the DCC LDP does however not cause any policy contradiction or prevents national policy being material to the determination of planning applications.

DRAFT – Annual Monitoring Report 2024

6. Nutrient Neutrality

Natural Resources Wales (NRW) set new phosphorus standards for nine Welsh river Special Areas of Conservation (SACs) on the 21st of January 2021. The objective is to improve the water quality by reducing phosphorus load levels. The assessment report on compliance with tightened phosphorus targets has shown that about 38% of the surveyed waterbodies in the “River Dee and Bala Lake SAC” compliance areas fail to achieve the targets.

NRW also published an evidence report on ammonia and compliance with water quality targets for Welsh River SACs in January 2024. Unlike phosphorus, ammonia has a higher degree of decay in water and does not accumulate within the wider water catchment. If mitigation was required to adhere to water quality targets, NRW advises local planning authorities that this can be done with the help of environmental permits at the point of discharge. Nutrient neutrality is not a requirement for ammonia as part of determining planning applications.

The Conservation of Habitats and Species Regulations 2017 (as amended), Part 6 “Assessment of plans and projects”, puts the duty on Denbighshire County Council as ‘Competent Authority’ (i.e., the decision maker) to test whether a plan or project is likely to have a significant effect on the conservation objectives of qualifying site features in the SAC before granting permission.

DCC LDP was subject to a Habitat Regulations Assessment (HRA) and adopted on the basis that the local plan would not allow for planning proposals which could adversely affect any qualifying site features. Since the new targets for phosphorus were introduced after the LDP was adopted in 2013, Officers cannot rely on the original LDP HRA to conclude that planning proposals, which are in accordance with local policy, do not significantly affect the conservation objectives of the River Dee and Bala Lake SAC.

DRAFT – Annual Monitoring Report 2024

The Council joined the River Dee Nutrient Management Board (NMB) in September 2022. NMBs are strategic and long-term partnerships with the principal objective to secure improvements in water quality and conservation status of the SAC qualifying features across the catchment area. From January to April 2024, a Nutrient Management Plan (NMP) was produced to provide the evidence base that is necessary to understand catchment specific issues and identify the most effective measures with clear deliverables. The document will assist DCC to identify the most sustainable places to deliver growth i.e., residential and economic, over the lifetime of the replacement LDP. Developers are able to source information on appropriate and effective mitigation measures to ensure nutrient neutrality is part of the delivery.

NRW continued the review of environmental permits for Dŵr Cymru Welsh Water wastewater treatment work discharges (< 20 cubic metres per day) throughout the monitoring period. There are two benefits arising from the exercise:

- 1) Reviewed permits include reference to the latest water quality targets for several nutrients, and, thus, allow planning authorities to rely on them when assessing the likelihood of significant adverse effects on the River Dee and Bala Lake's qualifying features that could arise from development in a specific area, and
- 2) Dŵr Cymru Welsh Water are able to advise on capacity in terms of connecting new developments but within the new water quality targets for individual nutrients.

The review of permits is particularly beneficial to decision-making on individual planning applications that have been held in abeyance for several months. Work on identifying appropriate mitigation measures must however continue, especially with focus on nature-based solutions.

DRAFT – Annual Monitoring Report 2024

7. Housing delivery

WG population and household projections and TAN 1 “Joint Housing Land Availability Studies” were crucial for the preparation of the LDP. Besides forming the basis for the overall housing growth in the County, local authorities were required to produce joint housing land availability (JHLA) studies annually and report housing completions against the ‘5-year housing land supply’ requirement.

Since 2015, DCC has failed to meet the annual housing target and report a ‘5-year housing land supply’ in respective AMRs. The LDP Review Report lists accordingly the continued lack of a ‘5-year housing land supply’ as a principal reason for reviewing the LDP. Furthermore, it comments on the delivery of the LDP Growth Strategy over the remaining plan period and highlights plan elements that need to be considered when preparing the replacement LDP.

“The LDP Growth Strategy will need to reflect the future need in light of the revised population and household projections. It is apparent that the annual growth level is unrealistic and will not meet the initially projected growth over the remaining lifetime of the Plan.”

Source: LDP Review Report (2017), paragraph 4.13

WG cancelled TAN 1 in 2020, including the mandatory requirement to produce JHLAs and the inclusion of the annual housing land supply figure in the AMR. DCC has however continued with the production of the JHLA because of its value in monitoring annual completion rates and the spatial distribution of development. Statistical information is crucial for informing the production of the replacement LDP.

Following the cancellation of TAN 1, WG introduced ‘housing trajectories’ as a means of monitoring housing supply. Unlike the ‘5-year housing land supply’ figure, housing trajectories focus on the comparison between the anticipated annual built rate (AABR) and the actual annual built rate as set out in the respective LDP.

DRAFT – Annual Monitoring Report 2024

Since the DCC LDP was adopted in 2013, it does not contain a housing trajectory, including a refined AABR that would constitute a point of reference for any future comparison. Subsequently published WG household and population projections have shown that the originally used figures to determine the overall required number of dwellings in the plan period was grossly overestimated. Based on the phasing figures that are contained in the LDP, the average annual rate (AAR) is 500 units in Denbighshire.

“For the avoidance of doubt those LPAs who adopted their LDP prior to the publication of the DPM (Edition 3) should use the AAR method as the primary indicator to measure housing delivery and include the trajectory approach within AMRs going forward.”

Source: WG “Development Plans Manual, Edition 3” (2020), paragraph 8.14

To exemplify the level of overestimation in LDP housing growth figures, the following paragraphs and Appendix 3 not only show housing delivery on the basis of the LDP but also include comparable information for the emerging replacement LDP (which is still without any material weight in local planning decision-making).

DRAFT – Annual Monitoring Report 2024

Table 1 sets out the components that form the basis for the housing land supply calculation in Denbighshire.

Table 1: Components of housing land supply calculations

Component	Commentary
Completions	<p>Figure includes all recorded completions in the monitoring period, including development on allocated sites and windfall sites.</p> <p>Since 2018/2019, housing completions are also recorded for the purpose of monitoring housing delivery for the emerging replacement LDP.</p>
Site allocations for residential development	<p>These sites are residential land allocations in the adopted LDP which do not benefit from planning permission for development.</p> <p>Their anticipated delivery is set out in the housing trajectory, rf. Appendix 3.</p>
Land Bank / Commitments	<p>These are sites for residential development which benefit from planning permission that has not been implemented yet.</p> <p>Their anticipated delivery is set out in the housing trajectory, rf. Appendix 3.</p>
Windfalls (Land)	<p>These parcels of land are not specifically allocated for residential development in the adopted LDP but</p>

DRAFT – Annual Monitoring Report 2024

may be brought forward for housing prior to adoption of the replacement LDP.

They are classed as 'large' (10 more units), small sites (less than 10 units) or conversions.

Windfall allowance is based on past levels of housing delivery (see Appendix 3, table 2). The 5-year average windfall delivery figure is 90 units per annum for the LDP. The proposed annual windfall figure has been reduced to 50 units in the replacement LDP, Preferred Strategy, to allow for administering supply of windfall sites.

DRAFT – Annual Monitoring Report 2024

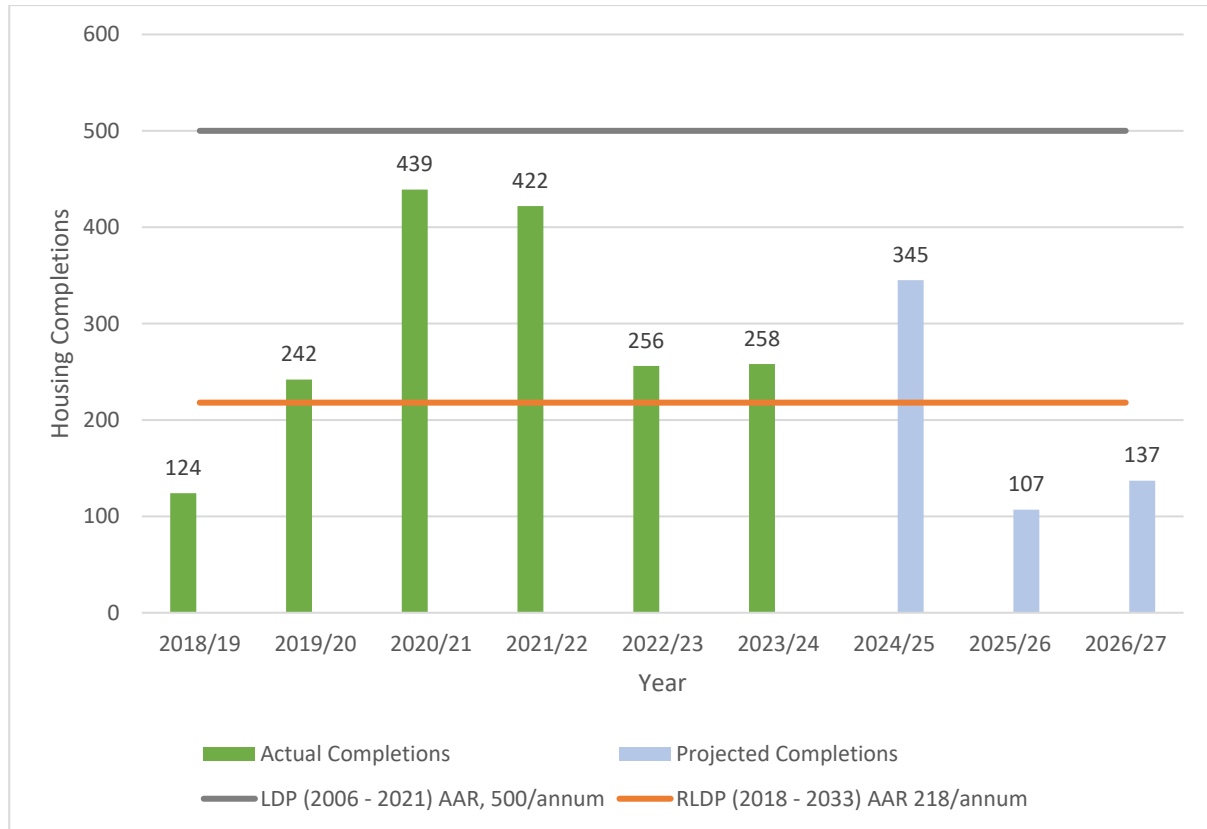

Annual housing delivery outcomes have been put into context with two plan periods: (1) the (adopted) LDP (2006 – 2021), and (2) the (emerging) replacement LDP (2018 – 2033). While the replacement LDP is not sufficiently progressed in order to be material to planning decisions, it should be highlighted that the corresponding Preferred Strategy proposes a significantly lower level of residential growth compared to the current LDP.

Lower growth figures result in lower AARs. There is a difference of 282 units between the LDP (2006 – 2021): 500 units, and the replacement LDP (2018 – 2033): 218 units. Based on WG “Population and Household Projections 2017”, DCC is confident that the reduced AAR presents a reasonable level of growth for the county up to 2033.

Chart 1 shows a comparison between completions (actual/ anticipated) and AARs (LDP/ replacement LDP) for the period 2019/20 to 2027/28. It must be emphasised that the actual completion figures did not meet the LDP AAR target of 500 units in any year but have exceeded the replacement LDP AAR target of 218 units since 2019. Projected completions are likely to decrease in the future because the amount of allocated, undeveloped and readily available land in the LDP is decreasing. Adopting the replacement LDP will eventually alleviate the perceived residential land shortage.

DRAFT – Annual Monitoring Report 2024

Chart 1: Housing completions (actual/ anticipated) for the period 2019/20 to 2026/27

DRAFT – Annual Monitoring Report 2024

8. Monitoring Outcomes

DCC has prepared AMRs for the LDP since 2014. The monitoring outcomes were crucial for the preparation of the LDP Review Report in 2017, and the decision to produce a replacement plan. The development plans system and national policy have evolved and new evidence emerged as set out in previous AMRs and sections above.

The effect of national policy on local decision making is monitored and reported as prescribed in WG “Development Plans Manual, Edition 3” (2020). While material to the determination of planning applications, national policy changes are not reflected in the LDP monitoring framework. Since the monitoring framework can only be amended by way of completing the plan review, DCC is still monitoring housing delivery, employment land provision etc. and local policy performance against a framework that was current in 2013.

National policy

WG prescribes a number of ‘core indicators’ that must be reported every year. They are considered to be essential for assessing the impact of national policy on decision making in every local authority area, and set out in WG “Development Plans Manual, Edition 3”, “Table 29 – Indicators”.

It must be noted that the DCC LDP was adopted before the publication of the ‘Plans Manual’ (2020) which means that it does not contain all the elements, which WG requires to be monitored. Prior to adopting the replacement LDP, data such as, housing trajectory is provided for information only.

DRAFT – Annual Monitoring Report 2024

Table 2: National Indicators

Indicator	Monitoring Outcome (2023/2024)
Number of net additional affordable and market dwellings built in LPA area.	Net additional homes: 251 units. Net additional affordable homes: 83 units.
Spatial distribution of housing development.	Spatial distribution of housing development was in line with LDP Strategy.
The annual level of housing completions monitored against the Anticipated Annual Build Rate (AABR).	DCC LDP was adopted prior to publication of WG “Development Plans Manual, Edition 3” in 2013. It does not contain a ‘housing trajectory’ with annual build rates for residential development.
Total cumulative completions monitored against the anticipated cumulative completion rate.	Appendix 3 sets out detailed information on the delivery residential units. DCC prepared a housing trajectory in line with the requirements that are set out in the development plans manual for information only.
The level of affordable housing completions monitored against the plan’s overarching target. The tenure of affordable housing completions.	Detailed information on the delivery of affordable and market dwellings can be found in Appendix 1 ‘Local Policy Performance’.
Employment land take-up against allocations.	LDP Strategy provides 59.5 ha of new employment land for the period 2006 – 2021.
Job growth.	The adopted LDP does not contain any targets for job growth in the Plan period.
Delivery of the affordable housing policy – thresholds and percentage targets for each sub-market area.	The adopted LDP does not contain any information on affordable housing delivery for sub-market areas in Denbighshire.
Viability	Information is not captured by the LPA.
The rate of development on key allocations (completions linked to phasing trajectories and infrastructure schemes, where appropriate).	Section 7 and Appendix 3 set out details on the housing trajectory (including phasing of development) for the County but it is not part of the adopted LDP.

DRAFT – Annual Monitoring Report 2024

Indicator	Monitoring Outcome (2023/2024)
The delivery of key infrastructure that underpins the plan strategy.	None.
The completion of Gypsy and Traveller sites to meet identified need.	The Council carried out a Gypsy and Traveller Accommodation Needs Assessment (GTANA), which was approved by Welsh Government on the 24th of May 2024. [To note that policy target and trigger level are linked to the results of the 'North West Wales Local Housing Market Assessment (2007)].
The scale/ type of highly vulnerable development permitted within C2 flood risk areas.	None.

DRAFT – Annual Monitoring Report 2024

Local policy

To assist visually with presenting local policy performance, the following font and colours have been included in the monitoring framework as an additional criterion.

Table 3: Performance indicators

Indicator	Commentary
Red	Unsatisfactory performance; Policy should be subject to review.
Amber	Inadequate performance; Policy meets review criteria but the matter is de minimis and a justified exception.
Green	Acceptable performance; no further action is required.

The following table presents a summary of those local policies, where the monitoring outcome is 'RED' and, therefore, need to be reviewed for the replacement LDP. Appendix 1 contains the detailed monitoring outcome for every local policy.

DRAFT – Annual Monitoring Report 2024

Table 4: Local policy review

Indicator	Monitoring Outcome (2023/2024)
BSC 1 – Meet the housing need of the County.	As set out in the LDP Review Report (2017), the LDP Growth Strategy and delivery of market and affordable houses fails on the (mathematical) poor delivery of dwellings. Delivery targets were set on the basis of Welsh Government ‘Population and Household Projections’ that have been shown to be greatly over-estimated figures. The Preferred Strategy (May 2023) for the next LDP 2018 – 2033 sets out an annual figure of 218 units; compared to 750 units for Period 3 in the adopted LDP.
BSC 4/ 8 /9 - Increase the number of new affordable dwellings built in the County.	As set out in the LDP Review Report (2017), the LDP Growth Strategy and delivery of market and affordable houses fails on the (mathematical) poor delivery of dwellings. Delivery targets were set on the basis of Welsh Government ‘Population and Household Projections’ that have been shown to be greatly over-estimated figures. The LDP should deliver more than 225 dwellings per year.
BSC 10 – Meeting the needs of Gypsies and Travellers.	The Council carried out a Gypsy and Traveller Accommodation Needs Assessment (GTANA), which was approved by Welsh Government on the 24th of May 2024. The original target was, “The Council will work in partnership with neighbouring authorities to instigate a site search. A suitable site will be identified and planning permission granted within 18 months of receipt of the North West Wales LHMA, should it identify a specific need.” North Wales LHMA was published in 2007. It does not contain a ‘housing trajectory’ with annual build rates for residential development.

DRAFT – Annual Monitoring Report 2024

Indicator	Monitoring Outcome (2023/2024)
PSE 6 / 8/ 9 - Maintain and enhance the vitality and viability of town centres.	The National Plan 2040 (2021) and Planning Policy Wales, Edition 11 (2021) introduced a change in national policy regarding the principle of town centre development; addressing the decline in retail uses by strongly supporting complementary uses. Local policy was adopted in 2013, with a focus primarily on the protection of retail where an increase in non-retail uses was regarded as undesirable.
BSC 5 - Deliver the Key Strategic Site.	Outline planning permission expired in March 2021.

SA Objectives

The Sustainability Appraisal (SA) monitoring framework is not part of the adopted LDP but was developed to assess the environmental and socio-economic effects. It is anticipated that the monitoring of SA Objectives will become part of an 'Integrated Assessment' and is carried out alongside the with delivery of the Wellbeing Objective.

There are a number of indicators that were developed on the basis of available datasets in 2013. The data was primarily provided by not-for-profit and voluntary organisations. There are limited instances where monitoring is no longer possible in 2024 because some of them no longer provide the information or emphasise alternative purposes. Appendix 2 contains the detailed monitoring outcome for every SA Objective.

DRAFT – Annual Monitoring Report 2024

Appendix 1 – Local Policy Performance

LDP Objective 1: Population and Community

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
BSC 1	Meet the housing needs of the County.	The number of new houses granted planning permission. The number of new homes completed annually.	In the case of both indicators: Less than 500 per year for 3 consecutive years in Phase 2, and less than 750 per year for 3 consecutive years in Phase 3.	RED	Monitoring period: 01/04/23 to 31/03/24 Number of dwellings granted planning permission: 102 units. Number of dwellings completed: 258 units.
BSC 1	Maintain 5-year housing land supply.	Not applicable.	Not applicable.	Not applicable	Indicator was replaced by the requirement to include a 'Housing Trajectory' into the AMR (see Development Plan Manual, Edition 3).
BSC 2	Increase the number of brownfield sites coming forward for development.	The amount of new development granted planning permission on brownfield sites.	Decrease below 60% for housing and employment (excluding Bodelwyddan KSS).	Not applicable	Data not captured.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
BSC 4 BSC 8 BSC 9	Increase the number of new affordable dwellings built in the County.	Number of affordable dwellings permitted per annum. Number of affordable dwellings completed per annum.	In the case of both indicators: Less than 165 affordable dwellings permitted per year for 3 consecutive years in Phase 2, and less than 225 per year for 3 consecutive years in Phase 3.	RED	Number of affordable dwellings that were granted planning permission within the last three years: 2021 / 2022 – 113 units; 2022 / 2023 – 118 units; 2023 / 2024 – 10 units. Number of affordable dwellings that were completed within the last 3 years: 2021 / 2022 – 177 units; 2022 / 2023 – 83 units; 2023 / 2024 – 143 units.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
BSC 10	Meeting the needs of Gypsies and Travellers.	n/a	Where a need for permanent and/or transit sites is identified for Denbighshire in the North West Wales Local Housing Market Assessment (LHMA). The Council will work in partnership with neighbouring authorities to instigate a site search. A suitable site will be identified and planning permission granted within 18 months of receipt of the North West Wales LHMA, should it identify a specific need.	RED	The Council carried out a Gypsy and Traveller Accommodation Needs Assessment (GTANA), which was approved by Welsh Government on the 24th of May 2024. [To note that policy target and trigger level are linked to the results of the 'North West Wales Local Housing Market Assessment (2007)'].

DRAFT – Annual Monitoring Report 2024

LDP Objectives 2 and 3: Economy and Jobs

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
PSE 2	An average of 4 hectares of employment land taken up per annum	The amount of new employment land, in hectares, granted planning permission.	Less than 3 hectares per year for 3 consecutive years.	GREEN	Amount of Use Class B - development that was granted planning permission on designated employment land: 2021 / 2022 – nil; 2022 / 2023 – 5.84 hectares; 2023 / 2024 – 8.01 hectares.
PSE 1; PSE 3	Protect employment land from non-employment uses.	The amount of employment land, in hectares, lost to non-employment uses.	More than 5% lost in conflict with Policy PSE 3 in comparison to the amount of employment land, in hectares, available in the year of LDP adoption.	AMBER	Total loss of employment land since adoption of LDP in June 2013: 7.96 hectares which is more than 5% of all employment land available (113.17 hectares) in 2013.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
PSE 5	Help to sustain the rural economy.	Unemployment levels.	Increase in unemployment levels in rural areas 5% above 2011 levels.	Not applicable	<p>Changes brought about by the introduction of universal credit does not allow for direct comparison with previous jobseekers' allowance figures.</p> <p>Percentage of people in Denbighshire that claim universal credit was 3.7% in March 2024.</p>

DRAFT – Annual Monitoring Report 2024

LDP Objective 4: Retail

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
PSE 6; PSE 9	Direct new retail development to existing town centres.	Amount of unallocated new major retail, office and leisure floor space permitted outside town centres.	1 new major retail, office and leisure development permitted outside town centres contrary to LDP policy.	GREEN	None during the monitoring period.
PSE 7	Meet the quantitative need for non-food retailing in the county.	The provision of new non-food retail floor space in Rhyl, Prestatyn and Denbigh.	No projects delivered by 2015.	GREEN	Prestatyn Retail Park opened in March 2013, and Denbigh Retail Park opened in 2017.
PSE 8	Maintain the balance of retail and non-retail uses within town centres.	Number of shops lost due to a change of use.	5% increase in non-retail uses in a town centre for 3 consecutive years.	AMBER	Local policy must be subject to review because of national policy change regarding town centre diversification.
PSE 6; PSE 8; PSE 9	Maintain and enhance the vitality and viability of town centres.	Number of vacant retail units within town centres.	Vacancy rate of 15% or above for 3 consecutive years.	RED	There are five town centres in Denbighshire where the vacancy rate was above 15% in the last three years.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
PSE 10	Protect local shops and services.	Number of local shops or services lost due to a change of use.	Loss of any local shop or service contrary to policy.	GREEN	No shop was lost contrary to local policy.

DRAFT – Annual Monitoring Report 2024

LDP Objective 5: Transport

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
ASA 1	Provision is made for safe access by all users, including cyclists, pedestrians to public services, retail and community facilities.	Number of developments that incorporate recommendations made in accompanying transport assessment and non-motorised user audits.	One development failing to incorporate the recommendations made in accompanying transport assessment and non-motorised user audits.	GREEN	The Council did not start any enforcement action due to non-compliance / failure to incorporate the recommendations made in a planning proposal's transport assessment and/ or non-motorised user audits.
ASA 2	Use of planning conditions/ S106 agreements to secure the improvement of or contributions to the improvement of public transport, walking or cycling infrastructure likely to be caused by new developments.	Number of new developments improving or making contributions towards the improvement of public transport, walking or cycling infrastructure through planning conditions/ S106 agreements.	No new developments making necessary contributions towards the improvement of public transport, walking or cycling infrastructure through planning conditions/ S106 agreements after four years.	GREEN	Improvements to walking or cycling infrastructure is principally secured by use of planning conditions. There were no financial contributions as part of a Section 106 agreement in 2023/2024.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
ASA 3	Application of maximum parking standards to new development proposals in line with relevant Supplementary Planning Guidance.	Number of new developments exceeding maximum parking standards set out in relevant Supplementary Planning Guidance	One new development failing to comply with maximum parking standards.	AMBER	There could have been a limited number of exceptions that were granted due to safety concerns or other material considerations.
BSC 5	Provision of new road infrastructure/ improvements to existing road network between A55 Junction 26 and Bodelwyddan (Sarn Road).	Length of new road infrastructure/ improvement works to existing network between A55 Junction 26 and Bodelwyddan (Sarn Road).	No new road infrastructure / no improvement works to existing network between A55 Junction 26 and Bodelwyddan (Sarn Road) before the occupation of the first dwelling on the KSS.	Not applicable	Outline planning permission for the development of Bodelwyddan Key Strategic Site expired in March 2021.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
BSC 5	Improvement of public transport / increased bus service links between Bodelwyddan KSS and key settlements in negotiation with service providers.	Frequency of bus services linking Bodelwyddan KSS and key settlements per hour.	No increase in frequency of bus services linking Bodelwyddan KSS and key settlements in accordance with the timetable agreed by developers and service operators.	Not applicable	Outline planning permission for the development of Bodelwyddan Key Strategic Site expired in March 2021.
BSC 5	Provision of new cycle and pedestrian routes/facilities as part of the Bodelwyddan KSS to provide connectivity between residential and employment / community facility areas.	Number/ length of new cycle and pedestrian routes/facilities as part of the Bodelwyddan KSS.	No cycle and pedestrian routes/ facilities before the occupation of the first dwelling on the KSS.	Not applicable	Outline planning permission for the development of Bodelwyddan Key Strategic Site expired in March 2021.

DRAFT – Annual Monitoring Report 2024

LDP Objective 7: Welsh Language

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
RD 5	No significant harm to the Welsh character or language balance of the community.	Results of Community Linguistic Statements or Assessments submitted.	Any development permitted where the Community Linguistic Statement or Assessment concludes Welsh character or language would be harmed where such harm is not outweighed by other considerations.	GREEN	<p>The Council did not permit any development where the supporting documents identified harm to the Welsh language or culture.</p> <p>Changes brought about in Technical Advice Note 20 “Welsh language” negates the requirement for the submission of a Community Linguistic Statement or Assessment for development on allocated LDP sites.</p>
RD 5	An increase in Welsh or bilingual signage and Welsh place names.	Use of Welsh or bilingual signage and the use of Welsh place names in new development.	Any development where new streets or places are created not including Welsh names or bilingual signage.	GREEN	It’s against Council policy to name streets in English only

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
RD 5	Prepare and adopt Supplementary Planning Guidance regarding the Welsh language.	Preparation and adoption of SPG.	Adoption of SPG within 12 months of the adoption of the LDP.	GREEN	Supplementary Planning Guidance note on 'Planning and the Welsh Language' was adopted in March 2014.

DRAFT – Annual Monitoring Report 2024

LDP Objective 8: Public Open Space

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
BSC 11	Ensure new developments make an adequate contribution to public open space provision	Number of units granted where the open space requirements are met.	1 planning permission granted where the open space requirements are not met, except where justified in line with policy.	GREEN	Open Space contributions are made 'on site' or in form of a financial contribution, depending on size of development and locality.
BSC 11	Protect allocated open space from development.	Amount of allocated open space lost to development.	1 planning permission granted for development on open space, except where justified in line with policy.	Not applicable	Data not captured.

DRAFT – Annual Monitoring Report 2024

LDP Objective 9: Minerals

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
PSE 15	Safeguard high quality resources of minerals, including limestone, sand and gravel, Denbigh gritstones, igneous and volcanic deposits from development that would result in permanent loss or hinder extraction.	Area of mineral lost to development.	Loss of identified mineral except where justified in line with the policy.	GREEN	There has been no loss of safeguarded mineral other than in accordance with policy.
PSE 16	Maintain a buffer between sensitive development and quarries	Number of planning permissions granted for sensitive development in buffer zones.	One or more planning permission granted for sensitive development within a buffer zone.	GREEN	No planning permissions have been granted for sensitive development within Mineral Buffer Zones during the monitoring period.
PSE 17	Contribute to the regional demand for aggregates.	Tonnes of sand & gravel extraction permitted. Maintain a 10-year landbank of hard rock.	No extraction permitted by 2017. Landbank falls below 10 years.	GREEN	No planning permission has been granted for the extraction of sand and gravel since LDP Adoption in June 2013. Landbanks are above 10 years. The Regional Technical Statement (RTS) 2nd

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
					<p>Review has not identified a need to allocate any sand and gravel or Crushed Rock Reserves in Denbighshire.</p> <p>Regional reserves in excess of 11.8 million tonnes sand and gravel remained at the end of 2021, equating to a 14-year landbank using a 3-year sales average.</p> <p>Regional reserves of crushed rock in excess of 219 million tonnes remained at the end of 2021 equating to a landbank in excess of 20 years. The location of permitted reserves and suitable rock type are unevenly distributed across North Wales.</p> <p>A Statement of Sub-Regional Collaboration between Denbighshire, Flintshire and Wrexham is</p>

					<p>plan has been superseded by revisions to TAN 21 Waste and the Collections, Infrastructure and Markets Waste Sector Plan which places an emphasis on avoiding overprovision of facilities, in particular, landfill.</p> <p>There is currently no requirement for additional non-hazardous household, commercial and industrial waste landfill capacity in North Wales, with adequate capacity located in Conwy and Wrexham, and a landfill awaiting environmental permitting approval in Flintshire.</p>

DRAFT – Annual Monitoring Report 2024

LDP Objective 11: Energy

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
VOE 10	Progress towards the TAN 8 target for onshore wind energy.	The capacity of renewable energy developments (MW) (installed or permitted but not yet operational) inside the Strategic Search Area by type per annum (in collaboration with CCBC).	Not achieving the target set out in TAN 8, National Energy Policy or PPW by 2015.	GREEN	Technical Advice Note 8 'Renewable Energy target 140MW'; Denbighshire County Council's total operational and consented capacity was 189.45MW on the 31/03/2015 (see DCC AMR 2015).
VOE 10	Prepare and adopt Supplementary Planning Guidance regarding renewable energy.	Preparation and adoption of SPG.	Supplementary Planning Guidance not adopted by 2013.	GREEN	Supplementary planning guidance note (SPG) on renewable energy was adopted by the Council in April 2016.
VOE 9	Increase the capacity of renewable energy developments in the County.	Number and type of renewable and low carbon energy schemes permitted per annum.	Less than 1 development per year over 3 consecutive years.	GREEN	The Council approved 15 planning applications that incorporated for renewable energy technologies; for example, solar panels, ground source heat pumps, air source heat pumps.

DRAFT – Annual Monitoring Report 2024

LDP Objective 12: Infrastructure

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
BSC 3	Secure contributions towards infrastructure to meet the additional social, economic, physical and/or environmental infrastructure requirements arising from development.	Number of planning obligations secured.	Failure to secure contributions where necessary.	GREEN	Total amount of planning obligations received in 2023/ 2024: £78,182.74.
BSC 12	Prevent the loss of community services or facilities.	Number of services or facilities lost through change of use.	Loss of any community facility unless justified in line with policy.	GREEN	No loss of shop was contrary to local policy.
VOE 6	To ensure new development does not increase risk of flooding.	% of new developments with Sustainable Drainage Systems (SuDS) incorporated, or similar solution, where suitable.	Failure to secure any or any successful challenges to the requirement, where suitable.	Not applicable	Schedule 3 to the Flood and Water Management Act 2010 makes SuDS a mandatory requirement for all new developments.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
VOE 6	To ensure major development proposals make efficient use of water resources and without detriment to the environment.	Number of major development proposals developed in accordance with a Water Conservation Statement.	Failure to secure any or any successful challenges to the requirement, where suitable.	Not applicable	Building Regulations – Approved Document G addresses water efficiency measures and standards that are to be met in new developments. Therefore, there is no need to adopt SPG
VOE 6	Prepare and adopt Supplementary Planning Guidance regarding water management.	Preparation and adoption of SPG.	Guidance not adopted by 2015.	Not applicable	Building Regulations – Approved Document G addresses water efficiency measures and standards that are to be met in new developments. Therefore, there is no need to adopt SPG

LDP Objective 13: Mixed-use Development

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
BSC 5	Prepare and adopt Supplementary Planning Guidance regarding the Key Strategic Site.	(This field has been left blank intentionally.)	Supplementary Planning Guidance not adopted by the end of 2013.	GREEN	Site Development Brief 'Bodelwyddan Key Strategic Site' was adopted in July 2014.
BSC 5	Deliver the Key Strategic Site.	Planning permission granted for 1715 dwellings, 26 hectares of employment land and associated facilities and infrastructure.	Planning permission not granted by the end of 2013.	RED	Outline planning permission for the development of Bodelwyddan Key Strategic Site expired in March 2021.

DRAFT – Annual Monitoring Report 2024

LDP Objective 14: Design

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Performance
RD 1	Respect site and surroundings and ensure sustainable land take.	Average density of residential development permitted.	Average density of residential development permitted falling below 35 dwellings per hectare unless justified by policy.	GREEN	Deviations from the 35 dwellings per hectare density requirement were justified where site-specific conditions necessitated doing so.
RD 1	Produce supplementary planning guidance regarding design.	(This field has been left blank intentionally)	Supplementary planning guidance not produced by the end of 2013.	GREEN	Supplementary Planning Guidance 'Residential Development' was adopted in October 2016.
BSC 1	Create mixed and balanced communities.	The provision of a range of house sizes, types and tenure to reflect local need.	No developments completed with a range of house sizes, types and tenure to reflect local need	GREEN	There have been a number of residential development schemes that delivered a range of house types and sizes to reflect local need such as, 'Cae Topyn' in Denbigh, 'Cae Mair' in Llanfair DC and 'Cysgod y Graig' in Dyserth.
BSC 7	Prevent the creation of Houses in Multiple Occupation	Number of HMOs granted planning permission.	1 or more HMOs granted planning permission.	GREEN	None.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Performance
VOE 1	Direct inappropriate development away from the flood plain	Amount of development permitted in C1 and C2 flood plain areas not meeting all TAN 15 tests (paragraph 6.2 i-v).	1 or more granted planning permission.	GREEN	None.

DRAFT – Annual Monitoring Report 2024

LDP Objective 15: Tourism

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
PSE 1	Contribute towards the visitor economy.	Number of tourism facilities lost through change of use.	Loss of any tourism facility except where justified in line with policy.	GREEN	Covid 19 has had an impact on the tourism industry although no tourism facilities appear to have been lost and a number of applications have been received for tourist accommodation.
PSE 1	Contribute towards the visitor economy.	Number of planning permissions granted and completed in accordance with policies PSE1 criteria iii), PSE 11, PSE 12 and PSE 14.	No planning permissions granted over 3 years in accordance with the named policies.	GREEN	Local policy PSE 12 and PSE 14 are frequently applied to planning proposals aiming to agree farm diversification, extending the tourism offer in rural areas, or extensions to existing caravan sites.
VOE 3	To protect the designation of the World Heritage Site, its Outstanding Universal Value and setting.	Prepare joint SPG.	Joint SPG not adopted by the end of 2013.	GREEN	The Joint SPG, including Denbighshire, Wrexham and Shropshire (England), was adopted in June 2012, and has been revised in August 2013.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
VOE 3	To protect and enhance the World Heritage Site Buffer Zone character.	Prepare joint SPG.	Joint SPG not adopted by the end of 2013.	GREEN	The Joint SPG, including Denbighshire, Wrexham and Shropshire (England), was adopted in June 2012, and has been revised in August 2013.

DRAFT – Annual Monitoring Report 2024

LDP Objectives 16: Areas of Protection

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
VOE 5	Protect statutory designated sites of nature conservation from adverse effects caused by new development.	Number of developments that have an adverse effect on statutory designated sites of nature conservation.	No development proposal granted planning permission that would have an adverse effect on statutory designated sites of nature conservation and unless accepted by Natural Resources Wales as being necessary for management of the designated site.	GREEN	The Council did not approve any planning application that would adversely affect statutory designated sites of nature conservation. Natural Resources Wales and the County Ecology and Biodiversity Officer are both consulted on proposals that are likely to have an effect on ecological features.

DRAFT – Annual Monitoring Report 2024

National Policy Objectives

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
Not applicable	Delivering new housing on allocated sites.	Number of planning permissions granted on allocated sites, as a % of total development permitted (hectares and units).	(This field has been left blank intentionally)	(This field has been left blank intentionally)	Total number of dwellings permitted on allocated sites: 68 (67% of all permitted dwellings).
Not applicable	Maintaining the vitality and viability of town centres.	Amount of major retail, office and leisure development (sqm) permitted in town centres expressed as a percentage of all major development permitted.	(This field has been left blank intentionally)	(This field has been left blank intentionally)	Amount of major retail, office and leisure development permitted in town centres expressed as a percentage of all major development permitted: nil.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
Not applicable	Amount of residential development meeting the Code for Sustainable Homes Level 3 and obtaining 6 credits under Ene 1 – Dwelling Emissions Rate	All new housing developments to meet this National requirement.	One new development not meeting national requirements.	Not applicable	Policy Target and Indicator are no longer covered by planning legislation. Planning Policy Wales (Edition 7), Section 4.12, has been revised to delete the national development management policy on sustainable building standards. These changes have been made in light of amendments to Part L of Building Regulations on energy efficiency.

DRAFT – Annual Monitoring Report 2024

Local Policy	Policy Target	Indicator	Trigger Level	Performance	Commentary
Not applicable	Amount of non-residential development over 1,000m ² on a site over 1ha meeting BREEAM 'very good' standard and achieving mandatory credits for Excellent under issue Ene 7 – Reduction of CO2 Emissions	All new non-residential developments to meet this national requirement.	One new development not meeting national requirements.	Not applicable	Policy Target and Indicator are no longer covered by planning legislation. Planning Policy Wales (Edition 7), Section 4.12, has been revised to delete the national development management policy on sustainable building standards. These changes have been made in light of amendments to Part L of Building Regulations on energy efficiency.

DRAFT – Annual Monitoring Report 2024

Appendix 2 – Sustainability Appraisal Objectives Monitoring

SA Objective 1: Ensure the housing needs of the community are met

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The LDP includes a number of policies promoting new housing which should positively contribute to housing needs.	No. of affordable homes delivered per annum and the % of eligible residential planning permissions where affordable housing has been negotiated.	To follow guidance on provision of affordable housing in the interim North East Wales Housing Market Assessment.	GREEN	<p>Affordable homes – whilst the annual rates have varied, the total number of AH delivered throughout the Plan period until now is 1,091 units. Council is in the process of preparing the Local Housing Market Assessment 2023 after Welsh Government published new methodology in March 2022.</p> <p>Following LDP adoption all residential developments have met the policy requirements for affordable provision unless deviation was justified in line with Policy BSC 4 & SPG Affordable Housing.</p>

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary

DRAFT – Annual Monitoring Report 2024

SA Objective 2: Promote community health and well-being

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
Promote community health and well-being.	Life expectancy	To maintain/increase life expectancy; Source: www.statswales.gov.wales	GREEN	Life expectancy has shown small increases between 2006 and 2014. There are no later figures from ONS and StatsWales.
Promote community health and well-being	No. of planning applications incorporating Health Impact Assessment (HIA)	100% for major developments	Not applicable	Health Impact Assessments (HIAs) are not mandatory in the Welsh Planning system. The Council has however carried out a HIA for the Bodelwyddan Site Development Brief and the Open Space Supplementary Planning Guidance. Decision-making is informed by the Council's Well-Being Impact Assessment tool that considers different types of impacts on local services.
Promote community health and well-being	Community Satisfaction / perceptions surveys – Housing Estate Surveys	To decrease % of people who describe their health as poor	Not applicable	Data not captured.

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
Promote community health and well-being	Indices of deprivation	To decrease % of population living in most deprived areas	Not applicable	Data not captured
Promote community health and well-being	Proportion of households not living within 400m of their nearest natural green space	0% Source: NRW (CCW) Accessible Green space standards	Not applicable	Data not captured.
Promote community health and well-being	Proportion of households within reasonable walking distance of key health services	Increase	Not applicable	The County of Denbighshire is primarily rural in character. There are only a small number of households that live within a reasonable walking distance of key health services.

DRAFT – Annual Monitoring Report 2024

SA Objective 3: Promote safer neighbourhoods and contribute to a reduction in the fear of crime

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
Promote community health and well-being; the LDP has reference to safety and crime in policies that consider design.	Overall crime rates by type	To reduce crime rates year on year	Not applicable	Data not captured. The Council adopted Supplementary Planning Guidance on Community Safety in March 2017.
Promote community health and well-being; the LDP has reference to safety and crime in policies that consider design.	Average crime rate in Denbighshire per 1000 inhabitants	To reduce the number of crimes committed per 1000 inhabitants	Not applicable	Data not captured. The Council adopted Supplementary Planning Guidance on Community Safety in March 2017.

DRAFT – Annual Monitoring Report 2024

SA Objective 4: Enhance existing and promote the development of high-quality recreation, leisure and open space and provide opportunities for people to experience and respect the value of the natural environment

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
Polices in the LDP seek to protect open space and so the effect are predicted to be positive.	Accessibility / availability of community facilities	To increase % of residents using local authority and/or private sports and leisure facilities at least once a week	Not applicable	Data not captured.
Polices in the LDP seek to protect open space and so the effect are predicted to be positive.	Number of residential permissions granted where the open space requirements are met	100%	GREEN	All planning permissions met the open space requirements as set out in Policy BSC 11. Developers may have successfully renegotiated or removed conditions relating to the payment of commuted sums for open space. The Council adopted a revised Supplementary Planning Guidance note on 'Recreational Open Space' in March 2017.

<p>Policies in the LDP seek to protect open space and so the effect are predicted to be positive.</p>	<p>Number and % residents using parks, open spaces and nature reserves annually</p>	<p>Increase numbers year on year</p>	<p>Not applicable</p>	<p>Data is not captured.</p>

DRAFT – Annual Monitoring Report 2024

SA Objective 5: Improve accessibility to education, employment, health, homes and community services for all sectors of the community through modes of transport other than the private car.

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
It will be important to monitor the accessibility of the opportunities.	Accessibility /availability of community facilities (schools, health and social facilities, nurseries, further education establishments, community halls, churches, libraries, residential homes for the elderly, cemeteries, open space, sports facilities, supported accommodation, theatres and cinemas)	Distances from residents' properties to community facilities as listed in the indicator to comply with the Welsh Index of Multiple Deprivation	Not applicable	Data not captured
It will be important to monitor the accessibility of the opportunities.	% of rural residential population within walking distance of key services	Maintain and improve the proportion	Not applicable	Data not captured

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
It will be important to monitor the accessibility of the opportunities.	Travel to work data/modal split	Reduce the distance of travel to work and reduce the % of people who travel by means of private car. Increase % of people travelling by sustainable modes of transport (walking/cycling/public transport)	Not applicable	Data not captured
It will be important to monitor the accessibility of the opportunities.	Traffic volumes	To reduce traffic growth rates	Not applicable	Data not captured
It will be important to monitor the accessibility of the opportunities.	Proportion of new developments (housing/ economic/ retail) located within reasonable walking distance of public transport, cycle ways and footpaths	To monitor of new developments within reasonable walking distance	Not applicable	Data not captured
It will be important to monitor the accessibility of the opportunities.	Frequency/reliability of public transport	Ensure frequency is maintained and improved	Not applicable	Data not captured

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
It will be important to monitor the accessibility of the opportunities.	Length of bus network	Ensure frequency is maintained and improved	Not applicable	Data not captured
It will be important to monitor the accessibility of the opportunities.	No. of settlements served by bus/rail	Ensure frequency is maintained and improved	Not applicable	Data not captured
It will be important to monitor the accessibility of the opportunities.	% of residential developments making relevant infrastructure contributions	Record the amount provided and the method spent	Not applicable	Data not captured

DRAFT – Annual Monitoring Report 2024

SA Objective 6: Protect and enhance the Welsh language and Culture, including the County's heritage assets.

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	Proportion of Welsh speakers in the County and their distribution	Maintain and improve the proportion	GREEN	<p>Welsh Government's Annual Population Survey estimates (of persons aged 3 and over who say they can speak Welsh by local authority and measure) indicate that the % of persons aged 3 and over who say they can speak Welsh appears to have increased to December 2023.</p> <p>There is an increase in the December figures from 37.1% in 2018 to 41.5% in 2023.</p>
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	Welsh medium schools and pre- schools as a proportion of all schools	Maintain and improve the proportion	GREEN	<p>There has been no reduction in the number of Welsh medium schools. Primary school Welsh language capacity is projected to be maintained.</p>

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	Bi-lingual published material	Maintain and improve the proportion	GREEN	All Council documents and material must be published bi-lingual.
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	% quality of Schedule Ancient Monuments, Historic Parks and Gardens, Conservation Areas, Historic Landscapes	No reduction in quality.	Not applicable	Data is not captured.
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	Number of listed buildings on the 'Buildings at Risk Register'	Reduction	Not applicable	Data is not captured.
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	% of Schedule Ancient Monuments subject to positive actions undertaken by DCC as a result of plan proposals	Increase	Not applicable	Data is not captured.

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	% of demolition in Conservation Areas	Low number in demolition	Not applicable	Data is not captured.
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	% of Conservation Areas with an up- to-date character appraisal	50% up to date	GREEN	All Conservation Areas in Denbighshire benefit from a character appraisal. Amendment to Rhyl Conservation Area boundary was confirmed in 2020.
LDP Policy RD 4 as well as the LDP objective to retain young people in the County through the provision of affordable housing.	Number of Conservation Areas adversely affected by plan proposals	Nil	GREEN	LDP does not contain any proposal that is contrary to Conservation Area objectives.

DRAFT – Annual Monitoring Report 2024

SA Objective 7: Support County economic development and regeneration, including the provision of opportunities for rural diversification.

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New employment land will be permitted in the County and it will be important to monitor the land take. In addition, the SRA will be developing regeneration schemes which will have an impact on the levels of deprivation in the north of the County. The number and type of rural diversification will be monitored for trends and impacts.	Gross Value Added per capita	To increase GVA per capita	GREEN	Denbighshire and Conwy GVA per head in 2013: £14,907; GVA per head in 2022: £19,590. (Source: ONS, 2024)

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New employment land will be permitted in the County and it will be important to monitor the land take. In addition, the SRA will be developing regeneration schemes which will have an impact on the levels of deprivation in the north of the County. The number and type of rural diversification will be monitored for trends and impacts.	Gross Value Added per worker	To increase GVA per worker	GREEN	Denbighshire and Conwy GVA per filled job in 2013: £34,038; GVA per filled job in 2021: £41,581. (Source: ONS, 2024)

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New employment land will be permitted in the County and it will be important to monitor the land take. In addition, the SRA will be developing regeneration schemes which will have an impact on the levels of deprivation in the north of the County. The number and type of rural diversification will be monitored for trends and impacts.	Proportion of economic activity by sector	To increase the number of sectors, especially rural trends	Not applicable	Data is not captured.

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New employment land will be permitted in the County and it will be important to monitor the land take. In addition, the SRA will be developing regeneration schemes which will have an impact on the levels of deprivation in the north of the County. The number and type of rural diversification will be monitored for trends and impacts.	% changes in the number of VAT registered enterprises	To increase the overall number of VAT registered enterprises	GREEN	Number of VAT registered enterprises/ number of active enterprises has increased from 3,155 (2006) to 3,665 (2023). [Source: ONS, 2024]

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New employment land will be permitted in the County and it will be important to monitor the land take. In addition, the SRA will be developing regeneration schemes which will have an impact on the levels of deprivation in the north of the County. The number and type of rural diversification will be monitored for trends and impacts.	Employment / unemployment rates	Reduction in unemployment rate	AMBER	Denbighshire Unemployment Claimant count – 2,125 (August 2011) fell to 1,835 (June 2019) but has risen to 2,040 (June 2024) [Source: Stats Wales].

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New employment land will be permitted in the County and it will be important to monitor the land take. In addition, the SRA will be developing regeneration schemes which will have an impact on the levels of deprivation in the north of the County. The number and type of rural diversification will be monitored for trends and impacts.	Unemployment claimant count with proportion of residents of working age population	To decrease the proportion of people claiming unemployment benefit	AMBER	Denbighshire Unemployment Claimant count – 2,125 (August 2011) fell to 1,835 (June 2019) but have risen to 2,040 (June 2024) [Source: Stats Wales].

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New employment land will be permitted in the County and it will be important to monitor the land take. In addition, the SRA will be developing regeneration schemes which will have an impact on the levels of deprivation in the north of the County. The number and type of rural diversification will be monitored for trends and impacts.	Take up of allocated employment land	To increase the take up of employment land	AMBER	There is no clear trend indicating a steady increase in employment land take-up.

DRAFT – Annual Monitoring Report 2024

SA Objective 8: Maintain and enhance the vitality and viability of town and rural centres

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The LDP protects the retail core of town centres from inappropriate change of use and so a positive effect should be monitored.	Vacancy rates in town centres	To decrease the amount of vacant floorspace	AMBER	Vacancy rates in local town centres vary throughout the County. Changes to national policy have removed retail protection from town and city centres which aims at decreasing vacancy levels.
The LDP protects the retail core of town centres from inappropriate change of use and so a positive effect should be monitored.	Quality of town centres (perception surveys)	Maintain and improve the quality	GREEN	Denbighshire Town Centre Health Check was carried out in 2022.
The LDP protects the retail core of town centres from inappropriate change of use and so a positive effect should be monitored.	% changes in total number of VAT registered enterprises in town and rural centres	Increase in the number of VAT registered businesses	GREEN	The number of active businesses in Denbighshire increased from 3,155 in 2006 to 3,435 in 2022 (latest information from Stats Wales, 2024)

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The LDP protects the retail core of town centres from inappropriate change of use and so a positive effect should be monitored.	% change in total number of shops, pubs and post offices in rural centres	To resist the loss of village shops, pubs and post offices in rural areas where appropriate	Not applicable	Loss of shops, public houses and post offices were only permitted in line with the policy tests that are set out in LDP policies BSC12 and PSE10..

DRAFT – Annual Monitoring Report 2024

SA Objective 9: Make the best use of previously developed land and existing buildings in locations served by sustainable transport modes

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The new development promoted through the LDP could lead to the remediation of brownfield land.	% of dwellings built on previously developed land	% of new dwellings to be built on previously developed land same comment as below	Not applicable	Data not captured
The new development promoted through the LDP could lead to the remediation of brownfield land.	Number of developments meeting densities of between 30-50 dph and higher % in town centres and areas with high public transport accessibility	All developments aim for a density of 30 dwelling per hectare	Not applicable	Data not captured
The new development promoted through the LDP could lead to the remediation of brownfield land.	Amount of derelict land	Reduce year on year	Not applicable	Data not captured

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The new development promoted through the LDP could lead to the remediation of brownfield land.	Number of empty properties	Reduce year on year	AMBER	Number of empty properties that were reported by DCC Council Tax dept.: 2021 / 2022: 842 units; 2022 / 2023: 823 units; 2023 / 2024: 964 units.

DRAFT – Annual Monitoring Report 2024

SA Objective 10: Safeguard soil quality and function and maintain long term productivity of agricultural land

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The new development promoted through the LDP will lead to the removal of soil from the land.	Total area of contaminated land	To reduce the area of contamination year on year	GREEN	Land remediation on sites allocated in the LDP was carried out on 0.78 ha of land for a food store at the Former Gasworks, Prestatyn and 1.73ha for retail development at Station Yard, Denbigh. Where development has yet to commence, this will be controlled through the use of conditions attached to the planning permission.
The new development promoted through the LDP will lead to the removal of soil from the land.	Total area remediated as part of new development	To remediate all areas of contamination to a satisfactory standard when required by new development	GREEN	Where development has yet to commence, remediation will be controlled through the use of conditions attached to the planning permission.
The new development promoted through the LDP will lead to the removal of soil from the land.	Soil management methodology	Positive mitigation of and reuse/replacement of soil	GREEN	Where development has yet to commence, remediation will be controlled through the use of conditions attached to the planning permission.

DRAFT – Annual Monitoring Report 2024

SA Objective 11: Protect and enhance all international, national and locally designated nature conservation sites, protected species and geo-diversity sites and avoid their damage or fragmentation. Protect, enhance and create appropriate wildlife habitats in urban and rural areas thus enhancing biodiversity.

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	Area and condition of statutory nature conservation sites. Area and condition of non-statutory nature conservation sites	85% of SSSI features in favourable condition by 2013. No adverse effects on SAC's/SPA's	GREEN	Nature conservation and biodiversity enhancement measures are a principal consideration in determining planning applications. There hasn't been a single planning permission that will adversely affect statutory designated sites of nature conservation.

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	% of designated sites improved by the LA	To improve condition of all designated sites	Not applicable	Data is not captured.
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	Number of proposals/policies resulting in the loss or damage to designated sites	No loss or damage to designated sites at all levels	GREEN	The Council did not grant a single permission for development proposals that are likely to adversely affect designated sites of nature conservation.

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	Achievement of the Biodiversity Action Plan targets	Annual Local Biodiversity Action Plan reports	GREEN	The Denbighshire Biodiversity Partnership reports actions derived from the Denbighshire Local Biodiversity Action Plan to the Biodiversity Action Reporting System. There are 75 listed on BARS website.
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	No. of Regionally Important Geological and Geomorphological Sites (RIGS)	No decrease in number	GREEN	There has been no decrease in the number of Regionally Important Geological and Geomorphological Sites (RIGS).

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	Area of land actively managed for nature conservation	Increase in the area of land managed under Environmental Stewardship Schemes e.g. Tir Gofal	Not applicable	Data is not captured.
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	Number of development schemes which include design in ecological features	Increase proportion of ecological design in new developments	Not applicable	Data is not captured.

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
There are policies in the LDP to protect the biodiversity in the County and so the effects are predicted to be positive. However, information should be collected in relation to condition and enhancement of the sites to monitor the effectiveness of the LDP policies.	Maintenance regimes in place for new habitats on new developments	100%	Not applicable	Data is not captured.

DRAFT – Annual Monitoring Report 2024

SA Objective 12: Preserve and enhance landscape character across the County, particularly the AONB

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The LDP seeks to protect the local landscape. It will be important to monitor whether new developments positively contribute to the design quality of settlements.	% of county designated for landscape	No decrease	GREEN	Extension to the AONB supported and achieved.
The LDP seeks to protect the local landscape. It will be important to monitor whether new developments positively contribute to the design quality of settlements.	% of county designated as high or outstanding landscape quality (LANDMAP studies)	No decrease	GREEN	SPG for AONB and World Heritage Site adopted. No changes in LANDMAP evaluation.
The LDP seeks to protect the local landscape. It will be important to monitor whether new developments positively contribute to the design quality of settlements.	Changes in the LANDMAP evaluation and extent of that change as a result of development	No changes	GREEN	SPG for AONB and World Heritage Site adopted. No changes in LANDMAP evaluation.

DRAFT – Annual Monitoring Report 2024

SA Objective 13: Protect and improve the water quantity and quality of inland and coastal waters

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
The LDP seeks to protect the quality of surface and groundwater resources. The availability of water resource falls within the remit of Dŵr Cymru which is responsible for managing water supply and demand across Wales, although it is recognised that this will be affected by the levels of growth within each settlement. Indicators have been proposed to monitor water quality and the potential effects of new development. The LDP also promotes sustainable design and construction and so it will be beneficial to monitor water use in the LDP, although this is also affected by individual actions.	% of watercourse classified as good biological and chemical quality	91% of rivers length in the UK should be of good quality by 2010. DCC will work towards achieving this target. Source: NRW	GREEN	In 2015, 42 per cent of Welsh waters achieved good or better ecological status, an increase compared with 31.2 per cent in 2009. Sea water of the North Wales Coast has been described as compliant with Bathing Water Directive. (NB: There has been no update since 2015.)

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary

Monitor the success of the MIPPS 01/2009 requirement for new development.	Construction projects incorporating on-site recycling	All major development projects to incorporate on-site recycling	Not applicable	Data not captured.

DRAFT – Annual Monitoring Report 2024

SA Objective 17: Protect mineral resources from development that would preclude extraction

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
There is a need to consider the mineral deposit which may be found underneath a development proposal.	Amount of mineral reserves	To sustainably manage existing reserves	GREEN	It's a priority to safeguard limestone and sand and gravel deposits. Mineral buffer zones were 100m for sand and gravel and 200m for hard rock (DCC LDP, adopted 2013).

DRAFT – Annual Monitoring Report 2024

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
There is a need to consider the mineral deposit which may be found underneath a development proposal.	Reuse of aggregates in construction	100%	GREEN	Reuse of aggregates in construction was approximately 89% in North Wales according to the 2019 Construction and Demolition Survey undertaken by Natural Resources Wales. 6% of aggregate wastes were disposed of by landfill in North Wales, with the vast majority of aggregate wastes being recovered for beneficial use, including backfilling. Although this indicator is not being complied with, in light of the above the objective is still being met. No mineral reserves were sterilised by non-mineral development
There is a need to consider the mineral deposit which may be found underneath a development proposal.	Number of planning applications approved resulting in the sterilisation of mineral reserves	0%	GREEN	It's a priority to safeguard limestone and sand and gravel deposits. Mineral buffer zones were 100m for sand and gravel and 200m for hard rock (DCC LDP, adopted 2013).

DRAFT – Annual Monitoring Report 2024

SA Objective 18: Encourage waste reduction, reuse, recycling and recovery and regional self-sufficiency

Effect to be monitored	Indicator	Target/ Data Source	Performance	Commentary
New development in the County will need to consider how it can minimise the impact on the environment. Policies VOE 7 & 8 permits new local waste management sites / facilities and so those numbers should be monitored.	Household, construction and demolition and industrial waste production (tonnage)	Reduction in waste to at least 10% of 1998 figure by 2010 By 2020 waste arising per person should be less than 300 kg per annum; Source: Municipal Waste Management Strategy for Denbighshire County Council, February 2005	GREEN	Recycling rates met the 2019/2020 national target and currently sit at 66% in 2023 The next target is 70% by 2025.
New development in the County will need to consider how it can minimise the impact on the environment. Policies VOE 7 & 8 permits new local waste management sites / facilities and so those numbers should be monitored.	% of household, construction and demolition and industrial waste recycled	By 2009/10 achieve at least 40% recycling/composting, with a minimum of 15% composting and 15% recycling Source: Municipal Waste Management Strategy for Denbighshire County Council, February 2005	GREEN	The target for 2009/10 was met across Wales (Source: Municipal Sector Plan).
