From the corporate priority allocation to match a grant		М
100% from the corporate priority allocation		Р
Major project which would have to be funded through the	capital plan	С

Delivery confidence

Red	Successful delivery of the project / programme appears to be unachievable. There are major issues on project / programme
	definition, schedule, budget required quality or benefits delivery, which at this stage does not appear to be manageable or
	resolvable. The project/programme may need re-base lining and/or overall viability re-assessed.
Orange	Successful delivery of the project/programme is in doubt with major risks or issues apparent in a number of key areas.
	Urgent action is needed to ensure these are addressed, and whether resolution is feasible.
Yellow	Successful delivery appears probable but significant issues already exist requiring management attention. These appear
	resolvable at this stage and if addressed promptly, should not present a cost/schedule overrun.
Green	Successful delivery of the project/programme to time, cost and quality appears highly likely and there are no major
Ol Coll	outstanding issues that at this stage appear to threaten delivery significantly
