

Political Balance Position

Updated 28 April 2025

The tables below summarise the position for each of the committees. The third column headed *Political Balance* shows the actual number of seats each Group is entitled to have on the committee.

Changes to committee memberships can occur at any time and the Groups are encouraged to ensure that each committee has a full contingent of members throughout the year. A general review of the political balance of the committees is undertaken annually to re-balance committees for the start of the new municipal year in May.
